

## Civil, Naval Probes Of Ship Crash Called

### Greek Invasion Repelled With Heavy Losses

ATHENS (AP) — Military circles expressed belief today that survivors of the 2,500 guerrillas—who, the government said, invaded Greece from Albania Sunday—had withdrawn successfully eastward toward the towering Mount Grammos, near the frontier.

Only scattered minor clashes were reported in the Mount Gramma area.

The rebels' retreat was noted Wednesday when Greek army units attacked north of Ioannina, but failed to make contact with the main force. Military informants said they believed the insurgents were trying to reach their comrades on Mount Grammos, where national forces were harrying another group of 2,000. The larger party failed in an attempt to capture Ioannina, capital of Epirus.

Greek troops watched closely for developments along the Yugoslav and Albanian borders from Florina to Konitsa, an area pregnant with possibilities of new eruptions of border battle.

Despite their apparent reversal, the guerrilla chieftain, Markos Vafiades, was reported in the Communist-dominated news paper Eleftheria-Ellada to have issued a proclamation over a guerrilla radio asserting it was absolutely necessary to create an independent Communist government in what he terms the "free regions."

#### WILLING TO TALK

The purported broadcast was said to have proclaimed that the guerrillas were "willing" to come to an agreement, but that establishment of a free state was necessary. One of the aims of the "free state" was to "free Greece from intervention, whose aim is to turn Greece into the starting point for war in the Balkans."

The broadcast contained no indication that the guerrillas intended to lay down their arms under conditions of current amnesty for political offences.

The withdrawing guerrillas—main body of a force of some 2,500 men which the government said earlier this week had

launched an invasion from Albania—was believed attempting to make a junction with other leftists fighting in the Grammos Mountain Range. Reports suggested government troops were taking steps to prevent such a junction.

The retreat followed the launching of a full-scale assault late Wednesday by reinforced government troops, who earlier had halted the invasion thrust near the village of Negrades, about 19 miles north of Ioannina.

#### ARTILLERY BUSY

The way for the attack was paved by a heavy artillery bombardment of guerrilla forces in an area scattered along the slopes of Mt. Gramma. Greek war planes strafed guerrilla positions.

The only serious resistance was reported in Elatohori and Asprangelos, where more than 300 guerrillas were said to have been wiped out.

Meanwhile Napoleon Zervas, minister of public works, declared statements made by leftist prisoners indicated two of the eight battalions comprising the invading guerrilla forces were composed of "foreigners."

Government sources previously had charged that the force said to have struck across the Albanian border contained elements of "an international brigade."

### Report Nehru Resigns Office

LONDON (Reuters) — Pandit Jawaharlal Nehru, vice-president of India's interim government, was reported by New Delhi radio tonight to have resigned.

"Differences of opinion" were said to have caused his resignation, the radio added.

### Vancouver-Banff Road Good Victorian, In New Car, Writes

"I have no hesitation in saying that, with the exception of construction points (for short distances) that the roads are good from Vancouver to Banff," wrote Archie Johnston, well-known resident of Ten-Mile Point, to a friend here following his arrival at Banff a few days ago.

Mr. Johnston had heard the talk about the bad condition of roads in the province and made inquiries at the Department of Public Works here. He was given information which he found to be correct.

After spending the first night of the trip at Ashcroft Mr. John-

ston drove to Revelstoke, where he had intended spending the next night but he made good time and was in that town for lunch. He decided to start over the Big Bend Highway immediately on finding that there were cabins at Miles 100 and 120.

"The first 50 miles were not too good but not too bad if one watches the signs," he wrote. "Then it started to rain and did it rain! But I reached Mile 120 at 6:30 p.m., four hours after leaving Revelstoke. It rained all night. We started out at 6:40 next morning. One hour after starting the sun looked as if it would come through; roads good. At 8 o'clock we had a nice road and nice sun and reached Golden, 73 miles from Mile 120, at 9, had good breakfast and then started for Banff. Beautiful day, good road, reached Banff at 12:15. We were two and one-half days driving over good and safe roads, if one obeys the signs.

"You, of course, wouldn't know my new car; couldn't see the hub caps as mud was half an inch thick, but that was to be expected. I just wanted you to have this first-hand information on the roads."

Mr. Johnston concluded his letter with the comment that the roads are good, except for the construction points, which are for short distances.

"That still holds good today," he said.

### Guerrillas Lose Ground

Communist guerrillas such as this one, who wore a U.S. army blouse when his picture was made at the Greek frontier village of Kastanofiton, have fallen back before reinforced government troops in the Mount Grammos region, near the Albanian border.

### Nearly 700 Feared Dead As Ship Sinks Off India Coast

BOMBAY (Reuters) — Nearly 700 passengers are feared to have lost their lives when a steamship sank during a rainstorm at noon today off the coast of Kolaba, south of Bombay. Reports received here described the sinking as the greatest ocean "disaster in recent memory."

Reports said only 12 of the total 700 passengers had been saved.

### No Bid For Higher Gas Rate Here

Although the B.C. Electric Railway Co. will ask the Public Utilities Commission for an increase in its manufactured gas rates in the Greater Vancouver area, no application is being made at present for an increase in the gas rates in Victoria, according to reports on a conference in Vancouver with A. E. Grauer, B.C.E.R. president.

If granted, the new rates would mean an average increase of 10.6 per cent for the general domestic users in Vancouver; an average increase of 17.2 per cent over the Vancouver distributing system, and no increase at all for the bulk of the domestic users in the urban areas, including New Westminster, Burnaby and North Shore.

Mr. Grauer said the increase was being sought because of a sharp increase in costs—51 per cent in wages since 1946, and 65 per cent in raw materials, chiefly coal and crude oil.

### To Jail Women At Prince George

Women prisoners who are committed at coast points will be flown by the B.C. Provincial Police to the new women's jail at Prince George, it was announced here today by Attorney-General Gordon S. Wismer.

He said the jail will be opened within the next week.

The new jail building which is a former army "dormitory" barracks will accommodate about 50 prisoners and was acquired from the War Assets Corporation. Its acquisition will provide for the overflow from the women's jail at Oakalla prison farm.

The flying of the prisoners to the jail will save time and thus relieve the greatly-overburdened provincial police force in the transport of prisoners to jail.

Walter Mulligan, chief of police in Vancouver, commenting on the conditions of the city jail there, said there was a serious

overcrowding problem. He added, however, that "as soon as the new jail at Prince George is opened, the situation will be alleviated."

### Memorial To Battle Of Britain Heroes

In Westminster Abbey, almost seven years to the hour after the first decisive air conflict over Britain, the King unveiled the Battle of Britain Memorial. Among the fliers commemorated are the names of seven Canadians.

### Fisherman Dies Of Heart Failure Landing Salmon

John Franklin, 73, died suddenly Wednesday night while fishing with his daughter, Frances Franklin, and his niece, Kathleen Haynes, in Baynes Channel, off Oak Bay.

Mr. Franklin landed a salmon—his first since he came here to retire three months ago from Winnipeg—and it is thought over-excitement brought on a heart attack.

Mr. Franklin landed the fish without difficulty and then held it up for nearby boats to see. About five minutes afterward, however, he expired.

A nearby launch towed the rowboat which Mr. Franklin was in to the Oak Bay boathouse where he was pronounced dead by a doctor.

He is survived by his wife and daughter.

For the past three months, the Franklins had been staying with Mrs. M. A. Haynes, 1526 Beach Drive, but had recently purchased a home on Admirals Road into which they were preparing to move sometime this week.

### Uses Her Own Bible To Take Court Oath

On being sworn in to give evidence at this morning's city police court, Miss Nara E. Johnstone, a witness to a July 3 traffic accident, refused to kiss the court Bible offered her by court clerk, Ostler.

"It might not be clean," she said.

Then she opened her shopping bag and produced her own Bible, carefully wrapped in tissue paper.

### Suspects Firebug

Belief that a firebug exists in this city was expressed this morning by Fire Chief J. A. Raymond.

Following an investigation of a fire which was extinguished by city firemen at 2 o'clock this morning at the Marine Iron Works Ltd., 315 Pembroke Street, Chief Raymond said:

"The fire was of an incendiary nature and it seemed to be the work of a bug."

## 6 Dead, 5 Missing Off Destroyer In Collision In Thick Maritime Fog

Picture of Micmac and eyewitnesses' story, page 17.

HALIFAX (CP) — Restoration of the Canadian destroyer Micmac whose collision with the freighter Yarmouth County left 11 men dead or missing will take months and include the delicate and expensive operation of grafting a new 50-foot forward section on her crushed hull, it was learned today.

Earlier, after cursory examination of the destroyer's twisted structure, an official had said it was his opinion that rather than tackle the tremendous job of making the ship fit again, she would be "written off."

In the meantime, at Ottawa, Defence Minister, Claxton said the warship would not be a total loss and would be capable of sailing again. The Micmac, commissioned originally in 1945 cost about \$8,000,000 to build.

Six men died violently, another five are missing and 16 were injured in the head-on crash of the two vessels off Sambro Light yesterday at the entrance to Halifax harbor. Search of the crumpled bow, from which the battered body of an unidentified rating was extricated early today, is continuing.

The force of impact did relatively little damage to and caused no casualties aboard the tough-sided freighter, but pushed up the deck structure of the thin-skinned destroyer for 50 feet like an accordion, twisted the forward gun turret askew, crushing ratings under shattered deck beams and spilling others into the sea.

Both naval and merchant marine men said the death toll would have been heavier if the captains of the two ships had not acted skillfully when the collision became inevitable.

The ships struck a glancing blow port-to-port. A naval spokesman said that if the destroyer had been turned sharply just before the collision the freighter would have cut her in half. Cmdr. J. C. Littler, D.S.C., Victoria, on

#### HAD LATEST RADAR

For instance, the Micmac is known to have carried the very latest in radar devices which are designed to pierce fog and pick up obstructions. It has been reported the radar was operating when the 2,000-ton Canadian-built Tribal entered the fog bank.

All members of the freighter and destroyer crew interviewed told similar stories of being suddenly jolted and at first thinking they had run aground. Then the freighter crew heard cries from the deck of the destroyer, but the fog was so thick they had difficulty in even making out it was a warship that was involved.

It was learned that the ships, as is customary in peacetime, were not following any set course and had not been informed by wireless of each other's presence.

### No Loss Of Time In Rescue Work

All of the dead, injured and missing, most of them from Ontario and Quebec, were members of the destroyer's company of 178 naval men and eight dockyard civilians putting the warship through her steaming trials before going into her second commission. One of the missing men was a Halifax civilian. None of the 41 crew members and two passengers aboard the freighter were hurt.

"I saw the huge bow of the freighter looking as though it was directly over my head and then there was a jolt," Cmdr. Littler said afterwards. "I knew we had been hit."

"I never heard one single thing" before the crash, the captain said. "My fog horn was going every two minutes and I thought we had run the ship ashore."

#### THICKEST OF FOGS

Capt. Norman E. Smith, veteran master of the Yarmouth County, said today the fog in which the two vessels were moving when they struck was "as thick as I ever saw it in my 35 years at sea."

### Hope Russia Will Be Agreeable Japanese Peace Treaty Parley

By JOHN M. HIGHTOWER  
WASHINGTON (AP) — Despite the widening split between Russia and the Western Allies in Europe, United States officials voiced hope today that Moscow will agree to Japanese peace treaty talks free of any big power veto.

If the Kremlin rejects the United States proposal this government will have to decide whether to go ahead with a "separate" treaty with Japan—that is, one without Soviet participation.

Unlike her position in Germany, Russia has no occupation forces in Japan and controls no Japanese territory. Hence officials here contend such a separate peace with a functioning Japanese government could be made to work.

The United States' proposal for a veto-free conference of 11 states to begin work on the Japanese treaty was announced Wednesday. It is a radical departure from European peace-making procedures in two respects.

In the first place, the conference would make decisions by a two-thirds vote, with or with-

out concurring votes of the big powers.

In the second place, the treaty drafting would be done not alone by the great powers but by seven other nations as well, each with a primary interest in the Japanese settlement.

The countries which the United States proposed for participation are the Big Four of the Far East—the United States, Britain, China and Russia—plus Canada, the Philippines, India, Australia, New Zealand, France and the Netherlands.

#### WELL RECEIVED

TOKYO (AP)—Gen. MacArthur was described as highly pleased and Japan generally jubilant over proposals for a preliminary Japanese peace conference next month.

The U.S. State Department announcement caught Tokyo by surprise. If the conference is begun Aug. 19 as suggested, it would mean the start of active work on a treaty with Japan months before most officials here had expected it.

No comment was available immediately from Gen. MacArthur, but this new proposal follows his repeated insistence upon an early treaty.

#### Was In Command

CMR. J. G. LITTLER, D.S.C.

of Victoria, who was captain of the destroyer Micmac Wednesday when she was in collision with the freighter Yarmouth County, resulting in the violent death of six of her crew with five others missing and 16 injured. Before the Second World War he was on a China coaster in the merchant service. During the war he served as captain of a corvette and with the Royal Navy in the South Pacific. He was mentioned in dispatches for his work as commanding officer of H.M.C.S. Brandon.

### LATEST

### 241 Disloyal U.S. Workers Lose Jobs

WASHINGTON (AP) — The House of Representatives civil service committee today issued a report showing that 241 government employees were found ineligible to retain their jobs for "loyalty reasons" during the nine months ended last March 31.

The report said 18 of the employees resigned and 223 were removed from the payrolls. It gave no names.

### Defies U.S. Subpoena

TORONTO (CP)—W. D. Ambridge, president of the Abitibi Power and Paper Company, said here today he did not consider the courts of the United States had any right to subpoena officers of his company to attend hearings in that country.

"They will not get men to attend hearings in the U.S. or give any information they may see fit to demand," he said.

### Ration Office Going

OTTAWA (CP)—The ration administration of the Prices Board is gradually disappearing entirely from the Canadian scene and rationing of sugar—the only remaining rationed item—is being taken over by the sugar administration, a Prices Board official said today. The spokesman said the process had been going on gradually for several months and was highlighted by the closing June 30 of the Ration Administration's headquarters in Montreal.

### Senate Adjourns

OTTAWA (CP)—The Senate today adjourned to await completion of the Commons business and prorogation of Parliament.

With no bills on the order paper and its business for the session cleaned up, the Upper Chamber heard Senator Wishart, Robertson, government leader, report considerable uncertainty over progress in the Commons. The Senators then agreed to recess at the call of the chair and reassemble shortly before dinner adjournment for further news from the Commons.

## Admiralty Issues Epic Dunkerque Story In Full After 7 Years

LONDON (AP)—The Admiralty today released, seven years after the event, the epic of the British and French evacuation from the bombed, bloody beaches of Dunkerque between May 26 and June 4, 1940.

The matter-of-fact language of the dispatch from the late Admiral Sir Bertram Ramsay, who directed the operation, hid none of the magnitude of the achievement.

Sir Bertram disclosed in his dispatch, written June 18, 1940, that of the 176 British ships used in the operation 35 were sunk and 42 others damaged. The 176, ranging from destroyers and hospital ships to trawlers and drifters, were supplemented by approximately 700 little boats from British fishing points, in the rescue of the battered troops.

### 330,000 RETURNED

Some 330,000 of the British troops who had been driven out of Europe by the victorious Germans were brought back to Britain.

The Admiralty, Sir Bertram wrote, had expected at the utmost to rescue 45,000.

The French navy, too, suffered heavy losses among the 196 ships it flung into the evacuation of French troops from the beaches. Nineteen were sunk and two damaged. In all, 123,095 French troops were transported across the channel in British and French ships.

Through "intensive" air attack, mauling by plane, action by motor torpedo boats, coast artillery gunfire and submarine operations the Germans tried to block the evacuation. Sir Bertram reported. All their operations succeeded in part, but the air attacks were the worst.

"Heavy air attacks started May 29," Sir Bertram wrote. "From then onwards the scale and vigor of the air attack in-

creased and during June 1 all ships in Dunkerque, off the beaches or in the approach channels were subjected every two hours to an unprecedented scale of attack by aircraft in such numbers that the Royal Air Force were unable to deal with the situation."

A footnote reported that the R.A.F. destroyed 262 German planes over the beaches between May 26 and June 4.

At about 4 p.m. May 24 a two-hour dive bombing attack on Dunkerque harbor forced the cessation of embarkations, but the operation was resumed at dusk. That air attack, however, blocked the harbor, and all troops thereafter were loaded from the beaches, wading out into the surf.

### HOSPITAL SHIPS ATTACKED

"Heavy" air attacks by more than 100 bombers started soon after dawn June 1 "and it became evident that a very serious threat to daylight evacuation again was in being. The toll of casualties among the ships during the day was mounting, particularly among the destroyers."

On June 2 this signal came from the beaches: "Wounded situation acute and hospital ships should enter during day. Geneva Convention will be honorably observed. It is felt, and that the enemy will refrain from attacking."

So two hospital ships started out and both, Sir Bertram reported, were attacked by Junkers planes. One, the Paris, was "badly damaged" and it subsequently sank "and the last attempt to evacuate the wounded by hospital carrier from Dunkerque was brought to nought."

Sir Bertram wrote that "the number of soldiers taken off the beaches by motor boats cannot be estimated. One 35-foot motor launch alone ferried off 600 men to transports and carried 420 direct to England."

## British Union Concerned Over Rise In Prices

HASTINGS, Sussex, Eng. (Reuter).—The Transport and General Workers' Union conference adopted a resolution Wednesday urging an immediate government review of prices and distribution, and expressing alarm at the rise in commodity prices and the consequent effect on the British standard of living. It requested the government to consider an extension of subsidies, at least, Arthur Deakin, general secretary of the union, who caused a sensation in the British labor movement by calling on Tuesday for a return to a "limited direction of labor," modified the sensation by opposing the policy of differential economic advantages for the undermanned industries. Mining, cotton and agriculture are the chief of these industries, and the demands by the miners for differential advantages have so far been supported by the Labor Party leadership and the majority of the British cabinet.

Deakin, moving the resolution on price controls and wage values, said the last few months had added a serious burden to the outgoings of the people. This had led to further demands for wage increases. The government must act to insure a proper balance between different industries.

## Vice-President

Harold V. Hopkins was appointed vice-president of Carter, Cummings & Co. Ltd., Windsor, at a recent meeting of the board of directors, announces Henry L. Schade, president. A native of Hanover, Ontario, and a graduate of the Ontario College of Pharmacy, class of 1927, Mr. Hopkins served his apprenticeship with Cairncross & Lawrence Limited, London. Mr. Hopkins completed 17 years' experience with this firm, having risen to the capacity of supervisor of the chain. After serving on the field force for two years, in 1942 Mr. Hopkins was appointed manager of the commercial division of the Winthrop Chemical Co. Inc., Windsor, which position he has held until his recent appointment.

NEEDS ROAD PERMIT TO LAUNCH BOAT—Nothing but trouble faced John Ashen, Montreal, when he built a 38-foot boat. Ashen had to tear out part of the wall. Then police said he needed a permit because boat would obstruct traffic. Ashen got one, finally launched the boat.

SCOT SHOWS HIS KNEES—Instead of standing back to admire the scenery when two fellow-passengers posed for the traditional ship's rail leg art, J. T. A. Dick, Scottish vacationer, hopped up on the rail of the Ss. Mauretania, docked in New York, and lent his kilted knees to the display. He is flanked by British war brides, Mrs. Joy Carol, left, on her way to Stafford Springs, Conn., and Mrs. Jane Hain, heading for Rochester, N.Y.

## Age Of Revolution Now—Dr. Van Dusen

WHITBY, Ont. (CP)—Reformation and world-wide Christian unity are the weapons the Christian church must use to fight revolutionary tendencies which threaten to break up the underlying structures of modern culture. Dr. Henry Pitney Van Dusen of New York told the International Missionary Council.

Dr. Van Dusen, president of the Union Theological Seminary, in an address at Wednesday night's session of the gathering of Protestant missionary leaders here from 40 countries, asserted that authentic Christianity identified itself wholly with the needs of men.

He said authentic Christianity sympathizes profoundly with the aspirations of men, but it cannot identify itself uncritically with the desires and demands of men.

"The deterministic character of our day is that it is an age of revolution—not merely in the obvious sense that it is marked by widespread and far-reaching economic, social and political revolutions, but in the far profounder sense that we are witnessing the break-up of the underlying structures of modern culture."

"The inner and controlling forces of any age of revolution are to be discovered in the new movements which have the power to claim general and ardent loyalty from the masses of men. In what they promise is found the object of restless longings which furnish the dynamics of a new age aborning."

## Hunt Jailbreakers

REGINA (CP)—The most intensive manhunt in the province's history spread throughout southern Saskatchewan today as R.C.M.P., municipal and railway police sought two men who escaped from Regina jail Wednesday night and were believed fleeing in a stolen car.

The two men—Donald Cheney, 19, of Ottawa and John Sweetman, 21, of Vermilion, Alta.—were thought to have stolen a car from the garage of Dr. J. G. McLeod of Regina, shortly after they broke out of the jail, five miles northwest of the city.

## Island Vice-President

Announcement is made by Col. Gilbert P. Norton, D.S.O., chairman of The Yorkshire & Pacific Securities Limited of Huddersfield, England, of the appointment of R. H. Edgell as vice-president of the company for Vancouver Island. Mr. Edgell was in charge of the Victoria office of a national investment firm until 1941, when he joined The Yorkshire & Pacific Securities Limited as manager of their Victoria office. He is a member of the Canadian advisory board of the "Yorkshire."

## Pulp, Paper Firms Consider Problems Of Forest Control

PETAWAWA, Ont. (CP)—Unless problems of better forest management are solved, the pulp and paper industry of Canada may be accused of not using its best efforts to discharge the responsibility which it has in regard to economic utilization and conservation of the country's forests. F. L. Mitchell, general manager of the Canadian Pulp and Paper Association, said here.

Mr. Mitchell spoke Wednesday at the first gathering of a three-day summer meeting of the woodlands section of the Pulp and Paper Association of Canada which drew more than 400 forestry men from coast to coast.

Maj.-Gen. Howard Kennedy, chairman of the Ontario Royal Commission on Forestry, said his report would focus attention on the problem of bringing back waste farm lands to forest production in Ontario.

He said that his recommendations, if implemented, would in the next 20 years make farmers want to stay on farms because farm land would become more profitable and attractive as a result of the wood crops and improvement of land.

J. D. B. Harrison, former chief of the economics division of the Dominion Forest Service, Ottawa and now chief of the Forestry Branch, United Nations' Food and Agriculture Organization, Washington, said that surveys were reassessing the forest resources of the world, and annual statistics would be issued yearly as part of the F.A.O. service.

Julian H. Merrill of Nipigon, Ont., was named chairman of the committee on forest fire prevention.

Patients at the Victoria Veterans' Hospital were entertained by the combined Citadel and Victoria West Bands of the Salvation Army, under the leadership of Deputy Bandmaster Hastings.

## Contentious Housing Issue Debated As Session Nears End

OTTAWA (CP)—The whole complex Canadian housing picture, both veteran and civilian, and a lot of other current issues were spread before the dying session of Parliament today with debate possibilities that shot proration forecasts into Friday—some even said Saturday.

The housing issue hit the floor of the Commons Wednesday night during consideration of Veterans' Affairs Department estimates and after one of the most hectic days in the session when the government's authority in Parliament was questioned by the entire opposition on a C.C.F. want-of-confidence motion.

But the administration of Prime Minister King won out, 84 to 54.

After the vote, only estimates remained on the order paper, but the first ones up—those of Veterans' Affairs Minister Mackenzie—kept the House going until the 11 night adjournment. Still to come were some Reconstruction Department estimates—containing contentious civilian housing—Finance, External Affairs and other departments.

During the debate on pensions Mr. Mackenzie said Canada's liability from the two world wars is increasing at the rate of \$800,000 a month, although other expenses in this field are declining.

Giving the chamber a review of departmental activities, Mr. Mackenzie pointed to a \$6,000,000 increase in this year's pension appropriation of \$80,750,000 and said it was based on belief that the monthly rate of increase would continue throughout the 1947-48 fiscal year.

As the discussion unfolded, the minister announced he would suggest the appointment of three doctor-members of the House as an interim committee to investigate complaints of veterans that their pension rights were being ignored.

At the night sitting Donald Fleming, P.C., Toronto-Eglinton, cited "shocking and disgraceful" housing conditions at Sarnia, Ont., and called for a royal commission to study Veterans' Land Act homes built in Canada.

Walter Tucker, Parliamentary Secretary to Mr. Mackenzie, retorted that Mr. Fleming's demand amounted to "drama."

## Nobody Wants War, Says Bevin U.S. Aid To Europe Justified

HASTINGS, Eng. (AP)—Foreign Secretary Bevin declared today it was "right and proper" for Europe to make a claim on American "productive genius" to aid in the reconstruction of the continent's economy.

Bevin said State Secretary Marshall, in offering aid to Europe, had said in effect: "See what you can do for ourselves and we will supplement what you do."

"I think it is right they should supplement it," he added in an address to the Transport General Workers' Union at its biennial convention.

On the domestic front, Bevin urged greater production in Britain's nationalized coal mines, declaring more coal would help him "put this dollar business right and make us independent of the dollar grip."

He urged patience in efforts to solve international differences. "Nobody in this world wants war; neither us nor France nor Russia nor America," the Foreign Secretary said.

He declared the people of the world needed to learn the desirability of surrendering national sovereignties in favor of "a greater sovereignty."

He spoke two weeks after Soviet Russia had withdrawn from the Marshall proposal talks in Paris on the ground that the plan, if implemented, would endanger the sovereignty of participating countries.

The Foreign Secretary did not mention Russia by name.

The trade union, the world's largest, arranged to debate today several resolutions critical of Bevin's policies in British relations with Greece and Spain.

The Foreign Secretary told critics he was "entitled to be judged at the end of the policy, and not in the middle."

Bevin again denied Soviet allegations that he was trying to divide Europe.

## Victoria Yacht Club Plans Treasure Hunt

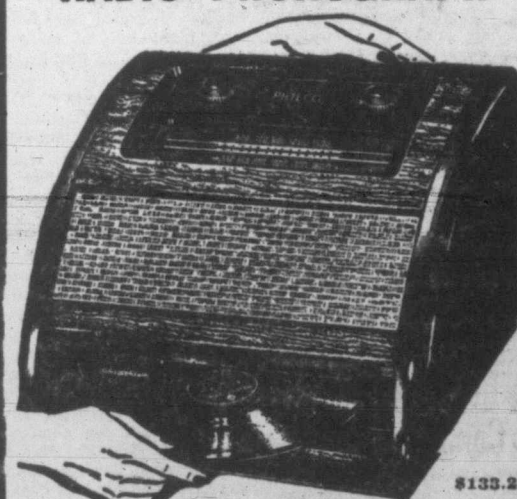

Approximately 150 members of the Royal Victoria Yacht Club are expected to attend the flag officers' picnic to Discovery Island Sunday. Boat-owners will take members to the island from the yacht club between 10.30 and 11 a.m.

The picnic will feature a treasure hunt. Clues and charts of the treasure hunt are in charge of L. E. Broome, Max Young and Mrs. Andrew Wright.

Flag officers in charge of the picnic are Commodore G. W. Bissett; Vice-Commodore W. H. Golby; Rear-Commodore Andrew Wright; retiring Fleet Captain E. P. Ashe, and Fleet Captain R. J. Wilde.

On Saturday the first race of B series for all classes—stars, lightnings and snips—will be held at Cadboro Bay. Approximately 15 boats are expected to participate in the race, which will be followed by a picnic in the evening at Discovery Island.

## Britain To Buy Soviet Timber

LONDON (Reuters) — Britain has negotiated contracts with the Soviet Union for supplies of Russian timber, a spokesman of the British trade delegation to Moscow said on arrival by plane Wednesday.

## More Jobs Open

VANCOUVER (CP) — Job openings in British Columbia are on the increase with announcement today that the number of available positions showed a rise of 1,122 from July 3 to 10. Totals now stand at 5,284 job opportunities for men, while employment chances for women number 2,742.

## Group Of Assassins Murdered Stowaway Police Probe Shows

MONTREAL (CP) — "Our investigation has led us to believe that the stowaway lost his life at the hands of a group of assassins," declared Deputy Police Director Hilaire Beauregard today, speaking of the Quebec Provincial Police probe into the death of a stowaway aboard the Canadian cargo ship, Maria G.

Then he added: "But we haven't been able to prove it as yet."

The stowaway, tentatively identified as C. H. Helmeier, a Shanghai restaurateur, was found dead aboard the vessel last April and the body was buried at sea off the coast of India.

"We may never be able to prove it was murder, but the case definitely is not shelved and we are pressing investigation," said Beauregard.

He stated a crew member who "undoubtedly knows the whole story" would be called upon shortly. The police official mentioned no names.

## Plan Court Move On Ferry Rates

SEATTLE (AP) — Capt. Alexander M. Peabody, president of the Puget Sound Navigation Co., announced Wednesday the company will start court action to stay the effective date of the new Puget Sound ferryboat rates as soon as lawyers prepare the necessary papers.

The firm announced last week it would close down if the court does not intercede in its behalf. The State Department of Transportation recently disallowed a 30 per cent rate increase set Feb. 15, reducing it to 10 per cent.

# News Of The Island

## Duncan Council Raps School Trustees On Library Deal

DUNCAN — A resolution making it compulsory for a municipality to go to the people before signing an agreement with regard to a public library, will be presented to the Union of B.C. Municipalities' convention in September by the Duncan city council, it was decided at a council meeting here.

The resolution arose when council learned that the Duncan School Board had signed an agreement with the Union Library for establishment of a unit in Duncan. Mayor J. C. Wragg said neither he nor the public was informed of the move.

A petition was received from persons in the vicinity of 231 1st Avenue, asking that a noise nuisance from a dog kennel be investigated. The health representative investigated and found everything in satisfactory shape, with regard to cleanliness and requested the owner to try and abate the noise nuisance as much as possible.

Council recommended that the action of the streets committee in appointing Roy W. Smith, as garbage collector, and Francis R. Summers, as assistant, on three months' probation, be endorsed.

Permission was granted J. H. James to use a loud speaker to advertise a provincial boxing championship to be held on July 26 in the Agricultural Hall. Request of the Elderly Citizens Club for a nurse to look after elderly people in Duncan, will be sent to the Vancouver Island Health Unit for consideration.

The Sale of Land Authorization By-law was passed 29 to 1,

allowing the city to sell a lot, previously intended as the site for a public rest room. A petition from property owners asking for a concrete sidewalk from Jubilee Street to the intersection of Kennedy and Government Streets, was referred to the street committee for consideration.

## Reward Posted At Lake Cowichan

LAKE COWICHAN — A reward has been posted by the firm for the apprehension of thieves who broke into Lowry's Auto Service and Power Saw Bucking and Felling Company here, Saturday morning, and took a new outboard motor, an Attwater 7½ horsepower, a Titan Power Saw with a four-foot cutting attachment and a newly-painted Hornet Power Bucking Saw.

Mr. Lowery said entry was made through a window which was broken in the machine shop, with the thieves getting into the office building where the equipment was located. He said they apparently tried to rob the cash register, but after ringing up some figures "gave up the job."

A mechanic sleeping above the office and Mr. and Mrs. Lowery, who live in a house back of the building heard nothing.

Constable A. Grant of Lake Cowichan and the B.C. Police are investigating.

## Work To Start Soon On Duncan Golf Course

DUNCAN — Work will start on the new golf course here as soon as possible, following a survey of the proposed site by A. V. Macan. The necessary amount of money has been raised and the course will be laid out shortly.

## Duncan To Get Same Type Parking Meters As Victoria

DUNCAN — Parking meters of the same type now being installed in Victoria and from the same company will soon appear in Duncan, following city council's action in entering a contract with the Mi-Co Meter Corporation of Canada for the supplying of 130 meters.

The meters which are the manual type rather than the automatic, which were installed in Vancouver, will be put in as soon as possible.

Aldermen learned that the equipment would cost the city nothing, as the company would install the machines and take 75 per cent of the collections until paid for. If the city is dissatisfied at the end of the year, the company will remove the machines without cost.

The streets where meters will be installed are Canada Avenue, Station Street, Kenneth Street and Craig Street. On Canada Avenue there will be parallel parking from Agricultural Hall to Municipal Hall; on Station Street, angle parking on the north side and parallel parking on the south side; Craig Street, parallel parking, both sides; and Kenneth Street, parallel parking on both sides.

There will be free parking areas at the post office, outside doctors' offices, and several other locations.

## Judgment Reserved In Nanaimo Strike

VANCOUVER (CP) — Mr. Justice A. D. Macfarlane in the B.C. Supreme Court Wednesday reserved judgment on whether Magistrate Lionel Beevor-Potts of Nanaimo had complete jurisdiction, as the Crown claimed, concerning charges preferred against a union.

The case involves 27 members of the Imperial Laundry at Nanaimo who allegedly went on strike June 9.

A writ of prohibition was served upon Special Prosecutor F. S. Cunliffe attempted to proceed against Beulah Patterson, president, as representing the union. Magistrate Beevor-Potts' jurisdiction being challenged, the case was carried to the Supreme Court for review.

Mr. Justice Macfarlane said he would deliver judgment within the next few days.

## Fighter Fatally Stabbed In Seattle

SEATTLE (AP) — Four men were held for questioning in the city jail here today in connection with the fatal stabbing of George Rice, 25, during an argument which started at Tuesday night's boxing match at the Civic Arena.

Rice himself had been a boxer. He fought in Golden Gloves tournaments in Columbus, Ohio, and in Spokane and twice appeared professionally since coming to Seattle.

Rice is survived by his wife, Margaret, and two sons, Jackie, four, and Jimmie, 15 months. Kenneth Bonthuis, a friend, told investigators that an argument between Rice and three men sitting near him began during the fight. He said Rice told one of them to quit using obscene language.

When he and Rice left the arena, the other three were outside. Bonthuis declared one of the assailants pushed Rice against a wall and stabbed him in the chest. Rice died in a hospital.

## Lumber From Russia For British Houses

LONDON (AP) — As the result of an agreement concluded in Moscow, Britain—suffering from an acute housing shortage—was reported to be in line today to obtain sufficient lumber from Soviet Russia for the construction of approximately 30,000 houses.

Signing of a contract for delivery of the lumber was disclosed Wednesday night by a member of the British trade delegation, which has just returned from the Russian capital.

The spokesman acknowledged the price to be paid for the timber was high, but said it was "not out of proportion to present-day costs."

Other members of the British delegation are remaining in Moscow in an attempt to sign contracts for 1,000,000 tons of Russian grain in exchange for machinery and other manufactured articles.

## Lady Mountbatten Freed Of Charges

WASHINGTON (AP) — The \$185.05 worth of worthless cheques given by Lady Iris Mountbatten O'Malley, 27, were covered by her lawyer Wednesday, and all charges against the cousin of the King are to be dropped.

Her counsel, Thomas G. Carney, paid the money to Louis M. Denit, lawyer for a dress shop at which the blonde peeress gave the cheques.

Mrs. Wilhelmina Adams, the owner of the shop, had said she would drop complaints against Lady Iris upon payment of the money.

## U.S. Must Admit D.P.'s, Says Marshall

WASHINGTON (AP) — State Secretary Marshall urged Wednesday the United States admit a "substantial number" of Europe's 850,000 displaced persons, partly to remove a source of "conflict and friction" with Russia.

Marshall told a House of Representatives judiciary subcommittee that to accede to repeated Russian demands and forcibly return "these allies of ours" to their prewar homes would violate both American tradition and principles adopted by the United Nations General Assembly.

## Report LaGuardia 'Quite A Sick Man'

NEW YORK (AP) — Former Mayor Fiorello H. LaGuardia, who was operated on June 18 for a pancreas condition, was described Wednesday by his physician as "quite a sick man."

Dr. George Baehr said LaGuardia's convalescence was "extremely slow" and the post-operative prognosis indicated he was "far from well." LaGuardia, former director general of Unrra, returned to his home last Saturday.

## Want Grants Probed

QUEBEC (CP) — Quebec district officials of the Canadian Catholic Confederation of Labor will ask the Veterans' Affairs Department in Ottawa to investigate distribution of government grants being paid to employers of former servicemen, it was disclosed Wednesday.

Laurent Morency, Quebec district president of the Union, said that in one or two cases reported the employers had not received their grant and a pay cut had been absorbed by the worker. Ordinarily, the grant is split between employer and employee.

Poison ivy plants in the United States are more virulent than any found in the tropics.

## Buys Weekly Paper

PRINCE GEORGE — Harry G. Perry, publisher of the Prince George Citizen and Prince Rupert Daily News, yesterday announced the purchase of the weekly Nephako Chronicle at Vanderhoof, B.C., from W. J. Rimes. Mr. Perry will take over the publication after July 31.

## **OPEN THE THROTTLE**

**THE UNOFFICIAL CENSUS CON-**  
ducted by the National Employment  
Service office and other agencies here has  
disclosed an increase in population of which  
all who are seeking living accommodation  
are well aware. If, as is suggested, the  
growth has reached 2,500 since November,  
it merely serves to emphasize the trend  
which set in during the war years and  
which shows promise of continuing.

This development poses immediate prob-  
lems. Housing is one of them. Of no less  
significance are the needs for expanded  
services in the Greater Victoria area if this  
community is to draw full benefit from the  
influx of new, and for the most part young,  
settlers. Authority has already been given  
by the ratepayers for school modernization  
and expansion to meet current and future  
needs. Some preliminary work is being  
undertaken with a view to ensuring more  
adequate water services. The transportation  
requirements are receiving attention. These  
steps, be it noted, have been taken with  
the approval of the property owners, who  
have displayed a commendable resentment  
against lethargy in civic and municipal  
affairs—who have, it may be said, in-  
structed their representatives to get on with  
the job of overcoming the deficiencies re-  
sulting from the inactivity of previous years.

Much remains to be done. Co-ordination  
of police, fire and health services is not yet  
complete. The formal amalgamation of all  
districts into the one civic entity has yet  
to be accomplished. But the progressive out-  
look displayed recently by the citizens fore-  
casts a more rapid realization of this in-  
evitable union and promises greater strength  
to the community at large.

Not all developments must await civic or  
municipal action, however. Much will de-  
pend upon the energy with which capital  
expands industrial and commercial under-  
takings here. This is not to suggest Greater  
Victoria should become a minor Pittsburgh.  
But there are projects for which this part  
of the continent is highly suitable and  
which are adaptable to its way of life with-  
out too radical change. We have, moreover,  
seen some development along this line. The  
feltex industry, the match plant and furni-  
ture manufacturing expansion are cases in  
point.

Greater Victoria now has the added man-  
power requisite to industrial growth. Much  
of it is skilled. On the basis of reports from  
the National Employment Service, more can  
be expected. Labor forces are reasonably  
stable. The opportunities for continued pros-  
perity and progress are here. The com-  
munity will have only itself to blame if  
they are not seized and exploited.

## **AN OMINOUS PUZZLE**

**IT IS A CONTINUAL MYSTERY TO THE**  
man in the street why the diplomats and  
emissaries of Soviet Russia have thrown  
away at global conference tables the tre-  
mendous world admiration and good will  
which the simple fighting man of Russia  
gained for his country on the battle grounds  
of Europe. Time after time the unyielding,  
dogmatic Russian stand on joint postwar  
problems has sent the diplomats of the  
other nations of the world away from group  
conferences burning with a sense of frustra-  
tion and bitterness. What is back of it?

Let us consider some of the world de-  
velopments into which Russian tactics have  
thrown a monkey wrench since the close of  
the war. There was a foretaste of the  
Soviet bargaining policy at the San Fran-  
cisco Conference in 1945 in her hold-out  
against admission of Argentina to the  
United Nations Assembly, followed by her  
subsequent acquiescence on the condition  
that the Ukraine also be admitted as a  
separate delegate. This may be considered  
a legitimate piece of international dickering  
and a common enough method of gaining  
a point. But the thought that was driven  
home at that meeting was that Russia had  
demonstrated a determination to insist on  
her own view in debate at the risk of  
failure of the conference itself.

That tactic, in a much bolder fashion,  
has marked her negotiations ever since. We  
need only recall the continual Soviet use  
of the veto power at Security Council  
meetings, her employment of the "walkout"  
in protest against committee decisions when  
she has been a minority of one, and her  
delegates' stonewall refusal to concede or  
compromise in any particular once the  
Kremlin has ordered a course of action.

In this connection may be recalled the  
continuing failure to agree on control of  
atomic energy and disarmament; the failure  
at Moscow to reach agreement on the  
Austrian and German peace treaties; the  
refusal to sign the Italian treaty long after  
the other Allies have given their signatures;  
the refusal to join with Britain and the  
United States in co-ordinating the economies  
of the German occupation zones; the refusal  
to participate in the world trade organiza-  
tion; the refusal to agree to a United  
Nations border-watching commission in  
Greece; the savage attacks on the Truman  
plan to aid Greece and Turkey; and the  
outright boycott of the Marshall Plan to

aid European reconstruction. The list goes  
on and on. Surely Russia could not have  
been right and the other nations of the  
world wrong on every one of these im-  
portant international issues!

One is left asking what the motive can  
be for such intransigent behavior on the  
part of a country which so short a time  
ago was a highly respected and popular ally.  
There are as many answers as there are  
questions. What appears sure is that the  
other nations will continue to view with  
suspicion motives which remain so obscure  
and procedures which remain so unco-  
operative. They will hope for the best but  
fear the worst—a condition which gives  
little promise of security or peace.

## **A DEFENSIVE MEASURE**

**IN THE PRESENT STATE OF INTER-**  
national disagreement over control of  
atomic weapons of war there can be little  
criticism of the United States decision to  
organize her atom bomb production on a  
permanent basis. For several months a  
United Nations committee has tried fruit-  
lessly to overcome the stalemate between  
Russia and the western nations on the  
question of atomic control, international  
inspection, and general disarmament.

The United States has offered to make  
known her atomic secrets, destroy her  
supply of atomic bombs and outlaw the  
use of this weapon by all countries, but  
first she wishes international guarantees  
that the disarmament will be general and  
the security complete. Russia, on the other  
hand, insists that the United States disclose  
her secrets first, after which the question  
of security may be discussed. Such a situa-  
tion is not one to encourage the United  
States to consider her New Mexico plant as  
a temporary undertaking, however much  
she may wish to see an end to war.

When it is considered further that other  
countries are working night and day to  
duplicate the American achievement—and  
may even have done so already—then  
yesterday's announcement by the United  
States Atomic Energy Commission is seen  
as merely a logical development. Insecurity  
inevitably generates defensive measures.  
That such measures may cause feelings of  
insecurity elsewhere is a tragic feature of  
the armament spiral which has marked  
postwar international relations. Only com-  
plete frankness between nations will make  
it possible to avoid the consequences of  
mounting armaments. That frankness could  
come, too late.

## **THE FAMILY'S BUSINESS**

**OUR PROGRESSIVE CONSERVATIVE**  
friends in Ottawa, and especially the  
influential members of the party's Board of  
Strategy, evidently are seriously perturbed  
over the result of Monday's federal by-  
election in Halifax. A dispatch from the  
national capital informs us that whatever  
"weaknesses" there have been in the organi-  
zation "will be eradicated," and that steps  
are to be taken to refute "ill-founded  
rumors" in "some of the more ardent Lib-  
eral newspapers" that there is "discontent"  
in the Progressive Conservative Party. In  
this regard, Mr. J. M. Macdonnell, P.C.  
member of the House of Commons for  
Muskoia, and president of the national  
association, lets himself go thus:

"These stories are attempts to sow discon-  
tent in the party and undermine the position of  
the leader. This is party warfare. So far as  
the question of John Bracken's leadership is  
concerned I need say only one thing: There is  
no iota of truth in any suggestion that his  
leadership is in question."

Party discontent in days of political ad-  
versity is neither new nor novel. But a  
parliamentarian of the ability and experi-  
ence of Mr. Macdonnell must not be sur-  
prised if his pointed denial that such a  
condition exists within Progressive Con-  
servative ranks imparts new significance to  
the subject of his remarks. Only those who  
enjoy the confidence of Mr. Bracken, of  
course, can speak with authority on such  
a delicate matter. What happened in Halifax  
last Monday, on the other hand, must be all  
the more disconcerting by virtue of the fact  
that the candidate of the official opposition  
in the national forum finished up in third  
place—and more than 10,000 votes behind  
the government's standard bearer!

## **FIELD FOR RESEARCH**

**THE MARVELS OF SCIENCE ARE ALL**  
around us. They amaze us and frighten  
us. They make simple the complex tasks  
to which previous generations devoted un-  
told man-hours. A press of the button today  
does what the genius of another era could  
not accomplish. Truly, in this age of me-  
chanical inventiveness, we live in a time of  
miracles.

But why has science, which can trans-  
form a pig's ear into a silk purse, failed  
to solve that constant summer irritation,  
the newly-oiled road? We have been told  
that surfacing can only be done in the hot  
weather. Why? Cannot science, which can  
prove the efficiency of keg-lining a can by a  
most ingenious system, find some cure for  
the nuisance of this gummy, black covering  
during the one period of the year when  
motorists, domestic and foreign, want to  
use the highways most? We are not asking  
for something better than an atomic bomb.

What we want in this instance is just a  
roadway that can be put into good repair  
before the tourist and summer motoring  
season starts. Is that too much to ask of  
publicly-financed research chemists and the  
departments charged with the responsibility  
for maintaining highways?

You can teach a child some things, but  
alas, he is more influenced by things he  
isn't supposed to hear.

## **Matter Of Fact**

By JOSEPH AND STEWART ALSOP

### **THE ANSWER IS YES**

**A GREAT NATIONAL DEBATE,** of the  
deepest historic significance, is clearly  
looming ahead as to whether Secretary of  
State George C. Marshall's words at Har-  
vard are to be backed by American money  
and American goods. The debate will be  
heated, and with November, 1948, on the  
horizon, it is sure to have intense political  
overtones. The central question of the  
debate for Americans will certainly be: "Can  
we afford it?" It is worth pointing out that,  
at least as far as money is concerned, the  
answer is quite evidently "yes."

This answer is founded on unofficial  
but reliable estimates. The figures on  
which these estimates are based are simple  
enough.

The total U.S. government income for  
the last fiscal year, ending June 30,  
was something over \$43,000,000,000. Last  
January President Truman submitted to  
Congress an estimated budget for the  
present year of over \$37,000,000,000. The  
Congress is now hard at work trying to  
reduce this sum. Even if not a penny is  
cut, the estimated outgo would still be  
nearly \$6,000,000,000 below last year's  
income. If Congress pares off as much as  
\$3,000,000,000, the difference between last  
year's income and this year's outgo will  
then be almost \$9,000,000,000.

**THE LEVEL** of employment and of busi-  
ness activity (contrary to the gloomy  
crystal ball gazing of the economists) is  
now higher than it was during the last  
fiscal year. The highest estimate thus far  
made of the total cost during any one year  
of the Marshall program is \$6,000,000,  
000. Thus, assuming that the govern-  
ment's slice of the national income during  
the present fiscal year is as high as it has  
been during the year just ended, it is  
obvious that there will be more than enough  
surplus in the government kitty to finance  
America's part in the plan.

Two very large strings must of course  
be firmly attached to that statement.

The first is the qualification that the  
United States must suffer no economic de-  
pression, nor even a fairly mild recession,  
during the coming year. For even a mod-  
erate drop in the present great level of  
national income would knock all estimates  
galley-west. But here, curiously enough,  
in the view of reliable economic forecasters,  
something like the opposite of the all too  
familiar vicious circle will tend to come  
into operation.

**IF THE MARSHALL PROPOSAL** had not  
been made, the enormous volume of  
American exports would have begun to  
fall off sharply in the next few weeks or  
months. The European countries which are  
now running out of dollars would have been  
forced, regardless of consequences, to hoard  
their last few millions against a sudden  
emergency. The resulting plunge in the  
American export level would have made in-  
evitable at the very least a distinctly pain-  
ful recession.

However, with the European response to  
the Marshall proposal getting under way,  
the European leaders will certainly be in-  
clined to take a chance.

Faced with desperate internal economic  
situations, they will undoubtedly gamble  
that the American Congress will choose to  
back Marshall up. Thus the American level  
of exports will hold up, while the Europeans  
scrape the bottoms of their dollar barrels.  
And this in turn enormously reduces the  
likelihood of a serious recession in the  
near future, and makes it probable that the  
United States will have the money available  
to play its part in the Marshall proposal.  
Thus is the happy circle neatly completed.

**THE SECOND STRING** which must be  
tied to any expectation of a large sur-  
plus for financing European reconstruction  
is, of course, taxes. The President has  
announced his intention of vetoing the tax  
cut bill now going through the Congress-  
ional mill. But it is very far from certain  
that his veto will be upheld. The tax cut  
measure, if passed over the veto, will of  
course cut into the estimated velvet in  
next year's U.S. budgetary kitty. Even  
with a tax cut, however, since it would not  
begin to operate until Jan. 1, there is a  
fair chance that the government could fin-  
ance the Marshall program without going  
to the money lenders.

What all this adds up to is that, in terms  
of dollars and cents, the United States can  
well afford the effort which must be made  
to put dying Europe back on its feet. No  
sensible estimate, of course, can be made  
entirely in dollars and cents. Money has  
meaning only in terms of the things it can  
buy. Yet despite inflation, despite high  
taxes, despite the housing mess, the plain  
fact is that the United States is living better  
in terms of things to buy than it or any  
other country has ever lived before. And no  
informed person believes that this happy  
state of affairs will long continue if Europe  
is allowed to descend into a political and  
economic chaos which will profit only the  
Soviets.

**FINALLY,** of course, there is politics. As  
the Presidential year approaches, the  
temptation will be enormous for both sides  
to use for political advantage what will  
surely be the paramount issue of the times.  
Yet political and all, the United States has  
always squeaked through in the pinches.  
When Secretary Marshall made his speech  
at Harvard, he was taking a calculated risk  
that it would do so again.

## **The Great Divide**

## **'We May Be Proud Of The Work In India'**

An excerpt from Prime Minister  
Attlee's address in the United King-  
dom House of Commons on the  
Indian Independence Bill.

**LOOKING BACK** today over  
the years we may well be  
proud of the work our fellow  
citizens have done in India. There  
have, of course, been mistakes,  
there have been failures, but we  
can assert that our rule in India  
will stand comparison with that  
of any other nation charged with  
the task of ruling a people so  
different from themselves.

It would, I think, be unprofit-  
able to go back into the past  
and question whether, if action  
of a particular kind had been  
taken by a British government  
earlier, or if a different line of  
conduct had been taken by  
Indian political leaders on cer-  
tain occasions, a more satisfac-  
tory solution might be found  
than that which I am commending  
to the House today. The  
major difficulty that has faced  
all of us in the task of suggest-  
ing the best method of achieving  
Indian self-government has been  
the controversial issue, the ab-  
sence of mutual trust and toler-  
ance between the communities.

### **NO DEVICE TO RULE**

It has sometimes been said by  
our enemies that this was a dif-  
ficulty created by ourselves in  
order to perpetuate our own  
rule. Nothing could be more  
untrue. This same difficulty  
that faced Mr. Edwin Montague  
and the Simon Commission faced  
the president of the Board of  
Trade (Sir Stafford Cripps) in  
his mission and my three cabi-  
net colleagues in theirs. It was  
still the outstanding difficulty of  
the present viceroy when he took  
office. Everyone who has touched  
the Indian problem has been  
brought up against this  
stumbling block. All have wished  
to maintain the unity of India,  
to give India complete self-  
government and preserve the  
rights of minorities. Everyone  
has hoped that a solution might  
be found without resorting to  
partition, and many Indians of  
all communities passionately de-

sire this. But it has been found  
not to be practicable. We and  
the Indian statesmen have had  
to accept the only alternative—  
partition.

I earnestly hope this severance  
may not endure and the two new  
Dominions which we now propose  
to set up may, in the course of  
time, come together again to  
form one great member state of  
the British Commonwealth of  
Nations. But this is entirely a  
matter for the Indians them-  
selves.

### **SELF-GOVERNMENT DEMANDS**

The demand for self-govern-  
ment has been insistently pressed  
for many years by the leaders of  
Indian political thought. It has  
been stimulated by events external  
to India, in particular by the  
wave of national feeling that has  
accompanied both the great  
World Wars. This demand is not  
peculiar to India. It is indeed a  
natural result of the contact by  
dwellers in other continents with  
European political thought. The  
question has been as to how this  
desire could be satisfied. Delay  
in granting it has always resulted  
in more and more extreme de-  
mands. There is a tendency to  
consider that and nothing short of  
complete and absolute severance  
would satisfy this urge.

There is a desire on the part of  
those who are seeking self-deter-  
mination to cut every tie which  
connects them with their former  
rulers, but in the age in which  
we live there are very strong  
reasons which militate against  
the complete isolation which  
some demand. Many small coun-  
tries that long enjoyed their free-  
dom and independence have lost  
it temporarily or permanently.  
Some form of association with  
others for security and greater  
prosperity is the desire of many  
peoples. The League of Nations  
and the United Nations express  
their desire, but the one great  
practical example of how com-  
plete freedom and independence  
can be combined with inclusion in  
a greater whole is the British  
Commonwealth of Nations.

The British Commonwealth of

Nations is so unique that its  
nature is still not fully compre-  
hended. Even many Americans  
cannot understand that the Do-  
minions are as free as Great  
Britain. They do not appreciate  
that membership of the British  
Commonwealth, in words of the  
Prime Minister of New Zealand,  
"is independence with something  
added and not independence with  
something taken away."

In this bill (the Indian In-  
dependence Bill) are to be set up  
two independent Dominions, free  
and equal, of no less status than  
the United Kingdom or the Do-  
minion of Canada, completely  
free in all respects from any con-  
trol by this country but united  
by common allegiance to the  
sovereign and by a community of  
ideas, receiving from their mem-  
bership of the Commonwealth  
great advantages but in no way  
suffering any restriction.

The title of this bill expresses  
this fact that the independence  
which has been the goal of many  
Indians can be, and I believe will  
be, realized within the British  
Commonwealth of Nations. It is  
my hope that these new Domini-  
ons will continue in this great  
association giving and receiving  
benefits from it.

### **NO ABDICATION**

I saw with great regret in one  
paper, and I think in one paper  
only, the action which we are  
now taking described as abdic-  
ation. It is not the abdication but  
the fulfillment of Britain's mis-  
sion in India. It is the culminat-  
ing point of a long course of  
events. The Morley-Minto pro-  
posals, the Montagu-Chelmsford  
proposals, the Simon Commission  
report, the Round-table Con-  
ferences, the Act of 1935, the  
declaration at the time of the  
Cripps Mission and the visits of  
my Right Hon. friends to India  
last year, were all steps in the  
road that have led up to the pro-  
posals which I announced to the  
House on June 3 last. This bill  
is designed to implement those  
proposals, which met, I think,  
with general acceptance in this  
House and in the country.

## **Global Survey**

By DEWITT MACKENZIE

A.P. Foreign Affairs Analyst

**THAT** was a stern warning re-  
garding the dangers of the  
European crisis which State Sec-  
retary Marshall gave in his ad-  
dress before the conference of  
United States governors at Salt  
Lake City.

"There is no blinking the fact,  
that this country now stands at  
a turning point in its relations to  
its traditional friends among the  
nations of the world," said Marsh-  
all. "Either it must finish the  
task of assisting those countries  
to adjust themselves to the  
changed demands of a new age,  
or it must reconcile itself to see-  
ing them move in directions  
which are consistent neither with  
their own traditions nor with  
those of this country."

"In the latter case, the United  
States would be faced with a  
radical alteration of its own position  
in the world. I ask you to  
consider most carefully the im-  
plications of such a development  
for the future prosperity and se-  
curity of our country."

### **SECURITY JEOPARDIZED**

The general has left observers  
to dot the i's and cross the t's  
but that is not difficult. If we  
don't help the still free European  
democracies to regain their feet,  
they will be brought under Rus-  
sia's Communist domination.  
Thus America will be cut off  
from her old friends. Her secu-  
rity, both economically and mili-  
tarily, will be weakened.

But that's only a snapshot of  
the threat. Europe's economic  
crisis is by no means due solely  
to the ravages of war. A funda-  
mental fact which a lot of folk  
fail to realize is that Europe in  
particular, and the eastern hemi-  
sphere in general, are in the  
throes of the Communist world-  
revolution which was projected  
back in the days of the Bolshevik  
upheaval of 1917 and only now  
is in full swing.

Naturally, all Moscow's activi-  
ties have been dominated by the  
central idea of spreading Com-  
munism and thereby strengthen-  
ing Russia's own position. You  
see that in the methods employed  
in establishing domination over  
the countries of eastern Europe,  
and in the obstructions created  
in the United Nations' and in the  
various European conferences.  
You see it in Moscow's refusal to  
co-operate in the economic reha-  
bilitation of Europe.

## **TOUGH FOR AMATEUR** S. P. Tyler in Toronto Saturday Night

A car dealer in Detroit is re-  
ported to have been forced out of  
business for selling new automo-  
biles at list prices. It appears he  
was an enthusiastic amateur who  
didn't know any better.

## **SLOPPY**

Financial Post  
Tourist business is of great na-  
tional importance. Towns and  
cities and areas all over the coun-  
try are constantly shouting their  
attractions. Attractions they in-  
deed have, but the drab, dingy,  
miserably-kept appearance that  
characterizes so many of our  
communities doesn't help our  
cause.

We Canadians keep our chests  
far out on the conviction that  
we're great folks. But the truth  
is that, as a people, we are pretty  
sloppy housekeepers.

## **PLAIN HARD WORK** Anna Neagle in B.B.C. London Letter

"The star gets most of the pub-  
licity—the build-up; the glamor;  
if you like. But she invariably  
has much the longest part in a  
picture, which means that she  
works far harder than the other  
players! She's giving out nerv-  
ous energy all the time; she  
works at high tension. You may  
have heard a good deal about  
stars throwing a temper tantrum  
and being difficult—well, most of  
the reports of that kind are exag-  
gerated, but it's not surprising if  
they do sometimes go up in  
smoke."

## **GIVE THEM LIGHT!**

Washington Post  
The House must be aware of  
the tributes to the Voice of  
America program that are com-  
ing directly from abroad or from  
travelers arriving from abroad.  
In the blacked-out areas of the  
world the program as such is an  
event. In Romania, for example,  
where all kinds of skulduggery  
is going on under cover of news-  
paper censorship, it is true to  
say, we are told, that the peasant  
listens to the priest on Sundays  
and to the Voice of America  
every other day. All the villag-  
ers turn out at 11.30 every night  
to listen to it. Some of our cor-  
respondents, of course, criticize  
the material, but only out of a  
desire to improve the program,  
which they all regard as the only  
light that remains in a dark-  
ening world.

## **Industrial Change In Scotland**

News From Scotland

**THE FACE** of Scotland is  
changing. Industry and hous-  
ing are slowly remodeling its fea-  
tures, and in the years ahead the  
pace will be accelerated. Al-  
ready, that future shape can be  
visualized. Coal is the primary  
cause of the change. For long,  
the west, rich in coal, has been  
the dominant factor in Scottish  
industry. But the Lanarkshire  
coal fields are showing signs of  
exhaustion, and it is to the east  
that Scottish eyes are now turn-  
ing. The ancient kingdom of  
Fife holds the key to the future  
prosperity of Scotland. Within  
the next 20 years Fife will be the  
main centre of coal production in  
the country. The Secretary of  
State for Scotland has declared  
it vital that an immediate start  
should be made with the develop-  
ment of the tremendous coal re-  
sources now available, and plans  
are in hand for the creation of  
new towns to meet the needs of  
the new army of workers who

will gravitate to these regions.  
An industrialized Fife will re-  
quire new and improved com-  
munications with the rest of the  
country, and re-emphasizes the  
need for a new road across the  
Firth of Forth. A similar bridge  
to the north, across the Firth of  
Tay, which has likewise been ad-  
vocated, might also result and  
lead to the opening of the north-  
east corner of Scotland.

### **NEW DEVELOPMENT**

While east coast development  
offers widespread possibilities,  
the west has by no means had its  
day. Industrial estates already

referred to are attracting many  
new industries, and the new  
town that is to be built at East  
Kilbride, near Glasgow, is proof  
of a healthy belief in the future.  
With a population of 50,000, the  
town will provide an answer to  
the problems arising from the  
decentralization of housing and  
industry from Glasgow and the  
congested areas of northwest  
Lanarkshire. Another develop-  
ment in the west is the creation  
of a new mining town in Ayr-  
shire.

Not only is the urban scene in  
process of transformation; even  
the Scottish hills are assuming a  
new appearance, and in time will  
bear full witness to the work  
now being undertaken by the  
Forestry Commission. Bare  
slopes will be tree-clad, and fore-  
st villages—the first of these  
was recently inaugurated in  
Dumfriesshire—will play their  
part in the community life of  
Scotland.

### **BATH NIGHTS**

Health and Welfare Service

Frequent bathing, say the doc-  
tors, does more than ensure  
cleanliness. It helps tone up the  
system. As weather is getting  
warmer, Canadians are advised  
to make bathing a daily "must"  
when circumstances permit.

## RINSO GETS OUT MORE DIRT

**RINSO GIVES THE WHITEST WASH!**

## Value, Souvenir Seeking Tourists Replace Slap-Happy Purchasers

The day of the wartime and immediate postwar slap-happy buying of United States tourists in Victoria has gone. While Victoria today is attracting more tourists, these tourists are spending their money more carefully than their predecessors of yesterday and they are buying only a limited range of articles.

Victoria merchants, asked about these changes in the buying habits of tourists, had this to say:

"Before they would buy anything they saw and liked, but now they buy only those things which they consider they need and which will provide them with good value for their money."

In a survey of various businesses of the city, the theme of this statement was repeated over and over again, but in different ways.

"They used to buy. Now we have to sell," was the remark of a men's clothier.

"The price is the main factor in the present picture. It was never there in previous years," a department store manager said.

A chinaware dealer noted: "They shop around and buy only after they have compared your goods with somebody else's."

Why the sudden change in the spending attitude? Many reasons and these were given.

Some said people had been warned to spend only in their own country. Others said prices had gone too high.

A jeweler said he thought the drop in business was due to the par standard of the Canadian and U.S. dollars. "In previous years American tourists were receiving \$1.10 for their \$1. They liked that and consequently they spent more."

Many merchants said there was no longer so much money in circulation as there had been previously and one pessimist claimed the lack of impulsive spending was "a sure sign of a forthcoming depression."

### MANY BUY CLOTHES

Clothing stores—both men's and women's—are big attractions for tourists.

Harris tweed coats and suits are much in demand, although anything made in Britain will catch a tourist's eye. English and Scotch-knit sweaters are very popular with both men and women visitors and the men also go for handknit socks.

Cotton goods are left alone since most visitors can get equal or better value in cotton goods at home.

Imported woolen yardage is much in demand. Chinaware shops which cater

especially to the tourist trade report business is good. English china—specially famous name brands such as Wedgwood and Spode—is sought by tourists.

Department stores are popular haunts for those people who like to browse around and compare prices and quality of goods here with what they can get "back home."

These tourists investigate all departments but limit their purchases to three: ladies' ready-to-wear, men's furnishings and chinaware.

When footwear was rationed in the U.S., shoe stores did a thriving business during the tourist season, but now the visitors only buy English brogues.

Jewelry stores report tourist sales are down.

"Before, items such as silverware and watches could not be had on the American markets, but now they are back again. We only sell a few souvenir silver spoons now," one jeweler said.

Small shops devoted to small, inexpensive souvenirs report business is good. Provided the price is low, any trinket with a Victoria, B.C., label will sell.

### NOW AT PEAK

Despite the changes in buying habits of tourists there are indications that more visitors are coming than in several years.

Hotels are full. Travel services and bureaus are kept busy every minute of the day finding guest houses to take in people who cannot find hotel accommodation.

Dining-rooms and restaurants are showing a substantial increase in business from the influx of visitors. At the Empress Hotel, the ballroom has been made into a dining-room to eliminate queues of diners at the main dining-room.

Tourists more or less follow the same diet. For breakfast they have either ham and eggs or wheat cakes; for lunch, salads, and for dinner, steaks or roast beef. They object to meatless days.

As a beverage the tourists choose coffee. They drink tea and think it is a novelty, one hotel dining-room captain stated. Sightseeing companies also report that business is good.

This would indicate that there are more tourists in this city than previous years because more tourists have brought their own cars with them.

## Suggests Women Be Banned From Smoking

LONDON (CP)—Brave George Easter of Brighton ventured into print with a suggestion that women be banned by law from smoking.

In a letter to the Sunday newspaper The People Easter said: "It's time we had a law forbidding women to smoke. That would not only reduce consumption and save dollars but might perhaps restore to our girls a little of what they need so badly—feminine sweetness and dignity."

## Evicted Squatters Sleep Under Stars At Montreal

MONTREAL (CP)—Hoping no rain would fall, 16 veterans' families spent their second straight night in the open on the grassy sward of St. Helen's Island Wednesday night since their eviction from the old army barracks, in which 12 of them had moved into in a squatter movement last spring.

The approximately 80 members of the families were evicted Tuesday by the Central Mortgage and Housing Corporation on authority of the federal Justice Department.

First casualty of the eviction was Heliodore Chauvette, father of five children and an army veteran, who became ill and was taken to a hospital in Montreal by ambulance Wednesday night.

Where and when the families would be able to find new accommodation was not known.

Four of the families were evicted for non-payment of rent and the rest for illegal squatting.

J. S. Hodson, a corporation official, said the eviction was "deplorable" but that permission to allow the families to remain "would be an open invitation" for other squatters to take over other property.

Meantime, J. E. L. Price, head of the Canadian Legion's housing committee, termed it a "damn shame" that thoughtless or trouble-seeking veterans should make their children suffer by illegal squatting. Price said the Legion is 100 per cent behind the Central Mortgage and Housing Corporation, a government-owned company, in the eviction action.

"The Legion has been working hard to ensure that no worthy veteran is left out on the sidewalk and to date all have been looked after with the exception of this small group who, I believe, have been used by Communists under the leadership of Gagnon."

(Henri Gagnon, a Labor Progressive Party organizer, has organized several squatter movements in the Montreal district).

### VACATION BIBLE SCHOOL

Second and last week of Daily Vacation Bible School, conducted at Central Baptist Church under its auspices, is now in progress. Friday night at 7.30 the pupils will give a program of what they have learned and the work they have done.

## Need For Food Parcels Still Great, British Write Thanks

Heart-warming letters of gratitude from British recipients of food parcels bought with the money donated by Victorians to the Mayor's Fund are continuing to pour into Mrs. F. E. Dowdall, chairman of the special committee administering the fund. To date, Mrs. Dowdall said 1,504 parcels have been sent. A total of \$9,470 has been donated to the fund to buy the foodstuffs.

The Dowager Marchioness of Reading, head of the Women's Voluntary Services, the organization distributing the parcels, has again written Mrs. Dowdall.

"It really is wonderful of you to have sent over so many parcels, and I cannot tell you how grateful we all are," she said. "You were so tremendously encouraging when I met you last year, and you have certainly translated this encouragement into the most wonderfully tangible form."

"I wish I could find some way of sending through you adequate thanks to all those who have contributed towards these generous gifts but I do hope that although words fail me, you do realize just what it means to us and what we feel about it."

One woman who has just returned from a visit to England wrote: "The English are really suffering. One doesn't realize how hard it is to live on that food without experiencing it. No fresh fruit, practically no fresh vegetables, dark bread, you might as well say no meat, no eggs, no butter, no milk, no sugar—and what is left? Potatoes and dark bread, watery porridge and inferior fish (if one queues for an hour or so)."

One letter, received from a Lancashire woman told of the

joy experienced by her 90-year-old mother when a Victoria parcel arrived.

Another came from Cornwall, on behalf of the writer's father, 74 years old, who got a parcel.

"It would have given you great pleasure to have seen him opening the parcel and turning out the contents," his daughter wrote. "He was so pleased. We would like you to know how grateful we are for all your country has done for us during the war, and is still doing."

Still another letter came from a war widow in Chesterfield who has three small sons.

"It makes me feel proud to have received the gift from such a fine country," she stated. "It is a grand thing you are doing for us in our time of need and I am sure only goodness can come from your kindness."

## Speeding Motorists Targets Of Police

Throughout the Greater Victoria area police forces are running down motorists who are traveling at a rate over the speed limit. Wednesday in city police court a dozen drivers were fined \$15 each for this infraction of the traffic laws. On Tuesday eight paid the same fine, and more have been summoned.

Stanley B. Ryerson, Canadian author and lecturer, will address a meeting in the Princess Louise room of the Empress Hotel at 8 Sunday night. His subject is: "Truman, Disturber of the Peace." The grandson of the late Edgerton Ryerson, he has written several books on Canadian history and economics, including, "French Canada," "1837, The Birth of Canadian Democracy," "World To Win." The meeting is sponsored by the Labor Progressive Party.

## No Decoration

LONDON (CP)—Britons will continue to sip their tea and raise their boiled potatoes from plain white cups and plates. Sir Stafford Cripps, Board of Trade president, said decoration on domestic pottery would not be permitted as Britain could not afford the loss in exports of colored pottery which would be caused if workers changed to ornamentation of the home supply.

# Personal Notes

Mr. and Mrs. S. J. Evans, View Apartments, are spending a month's vacation at Qualicum Beach.

Mr. and Mrs. T. R. Kelly, Island Highway, with their two children are vacationing at Union Bay, V.I.

Mrs. Emma March is a visitor from Handsworth, Sask., the guest of Mr. and Mrs. George Massie of Langford.

Mr. and Mrs. G. Sparrow, former Torontonians are visiting friends in Victoria and Langford, prior to making their home in this city.

Guests from North Battleford visiting Mr. and Mrs. E. R. Sim, Joffre Street, are Mr. and Mrs. Frank Zarowney and Mr. and Mrs. Harold May.

Miss Penelope Braid and Miss Diana Lee will leave Victoria Friday afternoon en route to Alberta, where they will vacation for a month as the guests of Princess Tania Obolensky, at her Bow River Ranch, near Calgary.

Mr. John J. C. Shelly and his sister, Miss Ellie Shelly of Winnipeg are visitors in the city, staying at the Churchill Hotel. They will spend a week in Victoria, going on to Vancouver and Banff before returning to their Manitoba home.

Mrs. J. L. Ford left Wednesday evening for Seattle, en route to Boston, Mass., where she will visit her son and daughter-in-law, Dr. and Mrs. William L. Ford. Later, Mrs. Ford will spend some time in Montreal, Toronto, Hamilton and Woodstock before returning to Victoria in about two months time.

Mrs. Waldo Skillings with her house guest, Miss Janet MacRae, of New York City, and her three sons, Waldo, David and Hugh, left today for Port Angeles en route to Shelton, Wash., where they will spend the next week as the guests of Miss MacRae's brother and sister-in-law, Mr. and Mrs. J. MacRae.

Mrs. E. J. Harris was a tea hour hostess Wednesday afternoon at "Craighurst," Munro Street, Esquimalt, in honor of Miss Janet MacRae of New York City who has been the guest of Mrs. Waldo Skillings for the past week. The tea table was set under a gay umbrella in the garden. Mrs. J. D. Davenport presided at the urns and others present were Mrs. Waldo Skillings, Mrs. Frank Skillings, Mrs. W. Mearns, Mrs. A. Blythe, Mrs. W. McFadden, Mrs. J. Bowden and Mrs. G. Woodhouse.

Visiting friends in the city for a few days are Mr. and Mrs. W. Campbell of Vancouver.

Mr. and Mrs. D. McRae have returned to their home in Duncan, V.I., following a month's motor trip to California.

Mrs. H. Williams has returned to her home, 419 John Street, following a visit in Seattle as the guest of Mr. and Mrs. F. Keating and Mr. and Mrs. B. Hunter.

Mr. and Mrs. J. Paul left Tuesday for their home in Regina after a short visit with Mr. and Mrs. D. H. Sutherland, 1196 Clovelly Terrace.

Mr. Jim Sharp, a member of the staff of the Canadian Bank of Commerce in Vancouver, with Mrs. Sharp have been vacationing with friends in Duncan.

Mrs. J. Hout and Mr. W. Cattroll arrived in the city from Ottawa today. They are the guests of their brother and sister-in-law, Capt. and Mrs. A. J. Cattroll, Oliver Street.

Mrs. Kenneth Kingsley and her son, Ernest, who are spending a week with Mrs. Kingsley's brother-in-law and sister, Mr. and Mrs. F. Billsborough, Colwood, will return to their home in Seattle on Sunday.

On the occasion of the marriage of Miss Aileen Dunsmore to Mr. Alan George Jordan which took place July 12, fellow employees of the groom on the staff of the Provincial Secretary's Department, Parliament Buildings, presented him with a trillite lamp.

Mrs. E. Warren Presley, Lawrenceville, New Jersey, arrived in the city by plane via Pasadena and will visit her son and daughter-in-law, Mr. and Mrs. J. Exton Presley, 906 Linden Avenue. During her several weeks stay Mrs. Presley will be at the Swedish Villa, 644 Linden Avenue.

Mrs. Harry Jackson, 1129 Vista Heights, will leave the city Monday for Montreal where she will sail aboard the Empress of Canada for Liverpool. Mrs. Jackson will visit her sister, Mrs. Jack Williams, and her brother, Mr. William Williams, in North Wales. She will return to the city in October.

Miss Juanita McPherson was honored when Miss Evelyn Alexander and Mrs. A. M. Henry entertained with a kitchen shower at the home of Mrs. C. B. Miles, 1441 Westall Avenue. The honor guest was presented with a corsage bouquet of violets and sweet heart roses. Gifts were concealed in a decorated wishing well. Invited guests were Mesdames G. Craig, L. Humber, A. V. Alexander, C. B. Miles, M. Johnston, G. Wells, C. Chapman, Misses S. Billings, D. McNeill, M. King and A. King.

Mr. and Mrs. Gerald Walker have arrived in California from Manila and are at present enjoying a holiday with Mrs. Walker's sister and brother-in-law, Gen. and Mrs. Ned Schramm. Their daughter, Miss Jane Walker, who has been attending St. Margaret's School here for the past two years has joined them there. After visiting in the eastern States and Canada, the Walkers expect to arrive in Victoria in September and will be the guests of Mr. Walker's brother-in-law and sister, Mr. and Mrs. Frank Godfrey, Sidney, V.I., before returning to Manila.

Mrs. Robert Stewart and Mrs. Thomas Kerrone were joint hostesses Tuesday at the home of the latter at Meachief Lake, V.I., with a miscellaneous shower in honor of Miss Dolores Traer, daughter of Mr. and Mrs. L. D. Traer, whose marriage to Mr. W. Williams takes place in Victoria, Saturday evening. Both the honor guest and her mother were presented with corsage bouquets. The gifts were presented in a decorated wheelbarrow. During the afternoon, little Miss Eileen Peacock sang "I Love You Truly". Refreshments were served from a daintily-appointed tea table. There were 20 guests present.

# From Montreal To Visit Parents

Mrs. G. N. Rivington, the former Miss "Bunty" Chatham, with her bright-eyed baby daughter, Diana Jeanne, came by plane from Montreal the beginning of July to visit Dr. and Mrs. H. E. Chatham, 182 Gorge Road W. They will return by plane to their home in eastern Canada in August.

# Nanaimo Wedding Couple Honeymoon In California

Motoring in California are Mr. and Mrs. Alan George Jordan, who were married July 12 at St. Andrew's United Church, Nanaimo, with Rev. A. S. Wilson officiating.

The bride, formerly Miss Aileen Mavis Dunsmore, is the second daughter of Mr. and Mrs. Andrew Dunsmore, Nanaimo, while her groom is the only son of Mr. and Mrs. Albert L. Jordan, 1621 Fernwood Road.

Given in marriage by her father, the bride was gowned in white eyelet embroidered Swiss over taffeta fashioned on Quaker lines with fitted bodice and bouffant skirt, en train. A slim panel from neckline to hem of Valenciennes lace was repeated in a close-fitting cap which held the bride's train-length veil of French illusion net. Her bouquet was of American Beauty roses and white gardenias.

Gowns of misty blue, enhanced by the glow of candles, were worn by bridal attendants, Mrs. Lloyd Bertram, elder sister of the bride, wore chiffon over nylon taffeta, and bridesmaids, Miss Adele Dunsmore and Miss Freda Burdock, identical gowns of eyelet embroidered Swiss organza over nylon. They carried bou-

# Royal Couple Attend Races

Clubwomen's News  
Flower Guild—Members and friends of the Flower Guild of Metropolitan United Church were entertained at the home of Mr. and Mrs. Herbert Pendray. During the afternoon screen views of Africa and pictures of British Columbia were shown.

# Bride-Elect Honored

Mrs. Gordon S. Mitchell and her daughter Lorraine, 623 Raynor Avenue, entertained Monday evening at a miscellaneous shower for Miss June Boyle, formerly of Toronto, who has been their house guest for the past two months, prior to her forthcoming marriage.

Corsage bouquets were presented to the bride-elect and to

Mrs. C. H. Butt, mother of the groom-elect. A decorated parasol of pink and blue contained the many gifts.

A blue glass bowl with its arrangement of pink and yellow flowers and matching blue glass candlesticks with lighted tall pink tapers, centred the lace-covered supper table.

Mrs. C. H. Butt presided at the urn and Mrs. R. Barnes of Niagara Falls, Ont., and Mrs. H.

Maguire assisted the hostess in serving.

Other guests were Mrs. B. Langrish, Mrs. Ray Spouse, Mrs. M. Augustine, Mrs. Geo. Anderson, Vancouver; Mrs. Ray White, Mrs. Jean Goodwin, Mrs. Pam Kirchin, Mrs. Joyce O'Keefe, Mrs. Jean Boughey, Mrs. Ray Butt, Mrs. Roy Elves, Mrs. Allan Patterson, Mrs. Ellen Knight, Miss Helen McDonald, Miss Sylvia Morrow, and Miss Margaret Morrow.

## Personals

Mr. A. D. Carr Hilton, Kelowna, who has been visiting his parents at Duncan, is now the guest of his brother-in-law and sister, Mr. and Mrs. J. Woods at the Experimental Farm, Sidney. Mr. Carr Hilton who played for the Okanagan cricket team during cricket week in Vancouver before coming to Vancouver Island, is accompanied by his two daughters, Toni and Brenda.

Mrs. Alex MacDonald entertained at high tea last Sunday afternoon at her attractive home on the beach at Sidney. Her guests were Dr. R. Ernest Little, formerly minister at Wesley's Chapel, City Road, London, England; his niece, Miss Dorothy Cook; Rev. and Mrs. Ward of Al-

berta and their daughter and son-in-law, Mr. and Mrs. McEachern. Later, the party attended evening service at St. Paul's United Church where Mrs. McEachern selected the hymns, presided at the organ and accompanied her father when he sang a baritone solo. Rev. E. S. Fleming was the preacher.

Among Victoria guests attending the Jordan-Dunsmuir nuptials at St. Andrew's United Church, Nanaimo, July 12 were Mr. and Mrs. L. B. Noel, Mr. and Mrs. R. C. Anker, Mr. and Mrs. H. F. Jarvis, Mr. and Mrs. J. Creed, Mr. and Mrs. George Russell, Mr. and Mrs. S. Cornish, Mr. and Mrs. R. Husband, Mesdames E. M. Harris, E. Bentham, Misses Shirley Noel, Carolyn Cornish, Betty Johnson and Messrs. C. W. Creed, Douglas Dicker, Donald Robinson, J. Cullen, L. Fuller and Grover Berry.

## Fashion Note From Britain

Simple in effect are the new evening gowns recently shown in London. The skirt with the draped hem has made a tentative appearance. An evening gown in gold tissue in the Norman Hartnell collection aroused considerable comment but it is likely to be developed further before it becomes a fashion. Hip drapery of all kinds is popular just now, and it is interesting to see how designers have used it for the older woman who has increased in girth and weight. One designer showed a collection of clothes for the older woman which made so skillful a use of the draped line that the mannequins—both of them women in their early sixties who were what the English manufacturer terms outside—appeared to be much slimmer than they were. Typical was a dress with suspended drapery in the form of a wide scarf which hung nearly to the hem of the dress from front to back with both ends caught into a clever inset waist-yoke. Colors, too, were excellent. So often the stout woman is solemnly warned that she cannot wear anything but black, but this designer deliberately put her mannequins in such shades as powder blue, soft green, purple, and trusted to subtle cutting to eliminate inches apparently.

## Fastidious Grooming

Guard against colors blurring in pretty summer prints.

Underarm blurring of print colors has ruined many a pretty summer frock.

But no dress need be ruined, no matter how brilliant the print colors, no matter how much you perspire.

What takes care of that situation is a dependable anti-perspirant and deodorant that keeps you and your clothes safe. Fairly new, but widely favored is a cream product which contains an exclusive new ingredient called duratex. So effective is this ingredient that it has won the seal of approval of the Better Fabrics Bureau.

No matter what preparation you use to insure good grooming and keep armpits dry, make a practice of renewing the stuff oftener during warm weather. The more active you are, the more you perspire and the more your astringent preparation is diluted by the moisture you exude.

## Cottons Dress Up Summer Styles

Fine-combed cottons are suavely styled for summer dress-up occasion. Left, pale lavender mull is banded with delicate white embroidered batiste from square neckline to new, longer hemline. A bolero jacket tops the pink cambric dress, right, which has a tier-tucked cambric top.

NEW YORK—Cottons step into summer styles and do full justice to the occasion. Capable of carrying style honors right alongside more gaudy fashions are the suave little dresses called "designer's cottons."

Designers with a flair for handling fabrics of fine-combed yarns show their respect by giving ready-made dresses the "precious look" of hand-made clothes of earlier days.

Reminiscent of the era when dainty cottons owed their patrician distinctions to fine needlework, are tucked and lace-encrusted dresses of chambray, batiste, pique and two revival cottons: Cambric and mull.

If you remember mull as a droopy cotton, you won't recognize its "modern counterpart."

Today's mull is pebbled for crease-resistance. A resin finish not only discourages muzzling but gives "body" and crisp line to today's church-going dresses.

Mull '47 vintage, however, is still deemed worthy of nice lace. Bandings of fine white embroidered batiste are used, for example, to frost a dress of pale lavender mull. This lace is used in horizontal rows from the square neckline to the new longer hemline of the crisp, full-skirted dress.

Cambric is starred as a "designer's cotton." Pink, blue and aqua cambric are used to make tier-tucked dresses with cambric tops, new longer skirts. Topping these are bolero jackets with push-up sleeves which may be peeled off when the thermometer runs wild.

## 'Simplicity' Summer Slogan

NEW YORK—The pastel-colored dress wins as many votes from the graduating class this year as the white frock.

Whether the sweet girl graduate takes bows in white, blue, yellow or palest aquamarine, she can be sure of looking properly garbed in a style simple enough to be called a classic. Almost every dress previewed in New York collections has been designed to fill gaps in a summer wardrobe after the big day is over.

Crisp or sheer cotton, shark-skin, tissue faille or spun linen offer a full life ahead for the graduation dress. Child-like simplicity more than makes up for lack of fussy styling and sugared appeal.

Many a dress will step out on the platform masquerading as a suit. The illusion is put across by pockets that jut out below the waistline of jacket-like tops. Miniature hip tiers also enable two-piece dresses to pose as crisply-detailed spun-linen suits. A pale aquamarine model whose jacket front is closed with silver

buttons points up this type of styling.

On the dressy side, frocks have pert skirts bouncing with new fullness. Some skirts sweep to the floor. Others—boasting new longer daytime length—stop at mid-calf. Topped by snug-fitting bodices, these shorter dresses emphasize naivete with high round collars or demure little berthas.

One of the most youthfully charming candidates for graduation honors is an Ellen Hewitt-designed dress of white cotton pique, which owes its picture-book prettiness to a full ballet-length skirt, a waist-belted bodice and a new, old-fashioned berthas edged with cotton lace.

## Senator Says Divorce Undermining Society

OTTAWA (CP)—Senator J. H. G. Lacasse, Lib., Ontario, said in an address here Wednesday that Canada's soaring divorce rate was "undermining the very foundation of civilized society—the family."

Speaking at a meeting of the Richelieu Club, Senator Lacasse quoted "alarming" divorce statistics and compared Parliament with Reno in its role as a "divorce mill."

When sewing, keep a small magnet at your elbow for corralling stray pins and needles.

## In Step With Style

**Replenish Wardrobe**—New hat, handbag, shoes and spanking fresh gloves, can give practically any well-fitting "carryover" dress or suit an air of importance. Avoid faddish color tones and eccentric novelties that soon "date" a dress, and go "all out" for one especially gay hat each season.

**Color Style**—Elephant grey silk shantung, a newcomer in dressy neutrals for town wear, carries sincere style news in its cool appearance for sultry days in the near future.

**Summer Chapeaux**—Showing of summer millinery indicates that brims can go to any width, but the crowns definitely remain small, rounded and head-fitting—often partially open for cool comfort. The spring style of wearing a hat just back of the hairline or exposing a few inches of a smooth coiffure continues. Much draping of flowing scarfs around the crown of large brimmed hats is seen, giving an opportunity for employing a series of interchangeable trims on a beige, natural, burnt or black straw frame.

**No Slip Up**—Petticoats or half-slips fill the bill for those sun-baked or bare midriff dresses which top the summer sportswear list. An ideal suggestion for gifts are those navy blue and brown slips, and another long-absent favorite reappearing in small quantities is the fine white cotton slip with lace or embroidery trim, the type that seems so right under soft summer dresses.

**It's New—Bamboo**, a buttery beige tone for calfskin handbags has just been introduced as the perfect accompaniment for summer prints and monotonies. Blending as the mellow tone does with all colors, it's a boon to travelers who find carrying extra handbags a problem.

**Effective**—Middy-length beltless jersey overblouses, slightly shirred at the waistline or underarm seams give effective long body lines, and are silent but powerful campaigners for the cause of smooth, well-proportioned hiplines.

## Hand In Glove

NEW YORK—Glove styles feature new colors, screen-printed designs, Gay Nineties revivals and detachable trimmings to make the show of hands a more spectacular performance this summer.

Screen-printed suedes, such as multi-color polka dotted gloves of white doekskin, put confetti-bright spots on hands. Metal-buckled gloves introduce a new back-of-the-hand single seam.

Screw-on buttons on oatmeal-tinted pigskin gloves can change places with leather buttons of any color.

Gauntlets with perforated scalloped ruffles point to a trend of fancier glove cuttings that echoes a style note of the Gay Nineties. These "petticoated" gloves come in new beige shades, as accommodating to costumes as neutral shades of hosiery.

## Engagements

Mr. and Mrs. R. Hallberg, 534 Michigan Street, announce the engagement of their eldest daughter, Mary Winnifred, to Raymond Henry, only son of Mr. and Mrs. A. C. Smith, 1766 Armstrong Avenue. The marriage to take place Aug. 9, at 8:30 p.m. at James Bay United Church.

# U.S. Forges Superhighway Network

By ROBERT N. COOL

Those superhighways of tomorrow are slowly taking shape, in ever-lengthening but isolated segments which state and federal governments plan eventually to link in one 40,000-mile express system.

When that time comes it will be possible to drive from coast to coast at 70 miles an hour; or, anyway, to get where you are going without traffic jams and grave risk of a smash-up.

A network of multi-lane highways will connect all main centres of population, going through big cities by means of such express thoroughfares as New York City's East River and West Side drives, Cleveland's express highway, New Jersey's Pulaski skyway. In between, high-speed traffic will flow along uninterrupted arteries like the Pennsylvania Turnpike between Harrisburg and Pittsburgh, or

the parkway systems of New York and Connecticut.

## BREAK UP CONGESTION

This interstate network is the federal government's answer to the nation's traffic problem. It helps break up congestion with cities as well as on the open road. The pattern was set in 1944 when Congress passed the Federal Aid Highway Act which had been pushed forward by President Roosevelt.

Under this legislation \$1,500,000,000 of federal funds became available to the states for highway construction, provided each state matches its U.S. grant dollar for dollar. Both primary and secondary roads are to be included in the network, but the interstate superhighway system is its most spectacular feature.

Some 4,525 miles of the 1944 program have been completed. Now under construction are 11,

000 miles. Eventually improved roads will comprise 23 per cent of the 3,000,000 miles of highways lying outside of municipalities.

High costs have prevented greater progress since the war ended. Current highway construction costs exceed those of 1940 by 65 to 70 per cent, and last summer the Public Roads Administration was instructed to approve no new contracts to avoid competing for materials with the housing program. However, steady progress is being made.

Experts foresee that the highway act will set the pattern for road construction in the United States during the next 25 years. The program calls for "interstate highways, not exceeding 40,000 miles in total extent, so located as to connect by routes as direct as possible the principal metropolitan areas, cities and

industrial centres, to serve the nation defence and to connect at suitable border points with routes of continental importance in the Dominion of Canada and the Republic of Mexico."

The Alcan highway to Alaska and the hemisphere highway which is being completed through Latin America thus will be tied in with the U.S. system.

Previews of what the future holds on a nationwide scale have already been given motorists in the four and six-lane expressways built near several large urban areas. The Willow Run Expressway and the Detroit Industrial Expressway in Michigan, the Henry Hudson and Taconic State Parkways of New York, Oakland Express Highway in St. Louis, the Cahuanga Pass Highway in Los Angeles, as well as others, will be incorporated in the new network.

It marks a departure from the theory of the '30's that express routes should avoid large cities. Surveys showed that quick transit to and through them would better meet the requirements of American motorists.

## Firemen Fight Blaze At Ten Mile Point

Saanich firefighters were out for over four hours Wednesday afternoon before extinguishing a blaze at the newly opened Palmetto Road subdivision, Ten Mile Point. Firemen were called at 3:21 and did not return to their station until 7:50.

Three acres of grass and bush land were burned over but no property damage was done.

## Dorothy Dix SUMMER VISITORS

This is the time of the year when the summer visitors are abroad in the land, seeking whose substance they may devour; so perhaps, it is not amiss to erect a few red lights of warning against the depredations they are about to commit.

The first of these is: Do not be a self-invited guest, which is the besetting sin of the summer visitor. The telephone, the telegraph, even the humble pen and ink are still available, and anyone who desires your presence on long, hot summer days will have no difficulty in apprising you of the fact.

So be very certain that you are ardently desired before you begin writing letters in which you rave to the poor folks, who are unfortunate enough to own country places, about how beautiful the seashore is now, or how you pine for mountain air, or how you are longing to see Mary's dear face and the cute little children.

## SOLO MISSION

If, however, you are one of the uninhibited summer visitors who do not consider it necessary to have a card of admission to other people's tables, at least, don't take your family and your friends along with you when you make your hold-up. Of course, it will save you a lot of money to blow into the Smith's or the Jones' bungalow about lunch time, with the cheery announcement that you are simply starving and perishing for a drink, but decency is decency, except in the summer time.

If you are a woman and are a really, truly, bona fide, invited guest, for Heaven's sake have a heart and fetch your own supplies. There is no such pest as the visitor who never has a stamp or a sheet of paper, or any powder or paint or lipstick, and who uses up all of her hostess' Chanel No. 5 because she prudently forgot to bring any along. But her twin sister is the borrower who sponges on her hostess for gowns and evening wraps and fancy slippers, which she ruins without compunction. Why should she worry? They were not hers.

Then there are a few other things that girls may well bear in mind, if they want to play a return engagement as a summer guest. One is to try to give your hostess as little trouble as possible. Few girls ever consider that. They are thinking of their

## Painful Piles

Here is a low cost, simple home medicine. It helps make it possible for you to get quick relief from the itching, soreness, and burning pain of piles. It is a medical fact that piles come from causes INSIDE your body. They may need internal treatment. Hem-Roid is an internal medicine. Its medical action helps correct some of the internal conditions that cause such intense soreness and pain. Hem-Roid relieves constipation, wakes up your lazy liver and bile, eases the tormenting rectal irritation and helps heal the sore, painful pile tumors.

If you want quick and effective relief ask for Hem-Roid today at any drug store. It has helped thousands of sufferers. It should help you too. Try it now and see how quickly and easily you can relieve your pile misery.

**YOUNG INVENTOR DISPLAYS HIS HELICOPTER**—Inventor Stanley Hiller Jr., 22, of Palo Alto, Calif., is shown assembling his helicopter in preparation for the National Inventors' show at Los Angeles. He holds the 22-pound tail section. The 'copter differs from the conventional type in that it has two counter-rotating blades mounted one above the other, and works on a coaxial principle. Hiller formed his own company in 1939 when he was 14 years old. It will be three years, though, before this model will be marketed.

own pleasure and not counting the cost to others. So bear in mind that when you are not paying your board with money you have to pay for it with courtesy.

## BE TIDY, ON TIME

Therefore, don't be a scatterer. Don't leave your clothes all over the place. Put every article where it belongs. Be prompt. It is pretty discouraging to a hostess to have a good meal ruined by

your not coming to it until everything has gone flabby and stale. Fall in with whatever plan has been made for your entertainment and pretend you enjoy it whether you do or not. And don't overstay your time. Short visits make long friends.

Above all, girls, don't flirt with your hostess' husband or her son. That's taboo. That is the unpardonable sin that no hostess ever forgives in a summer visitor.

## Oak Bay Postpones Coldharbor Answer

Oak Bay Council at Wednesday's meeting made no decision on whether it would share with Victoria and Saanich the cost of maintaining the new juvenile detention home on 1327 Coldharbour Road. The council deferred the matter until the next meeting due to the absence of a councillor.

In a letter to the council, the Victoria City Council said it was ready to grant Oak Bay joint ownership, providing the municipality paid its proportionate share of the initial cost of the property and the cost of maintaining and operating the home.

### NEW STOP SIGNS

Oak Bay Council at Tuesday's meeting authorized the erection of two stop signs at the intersection of Bowker Avenue and Hampshire Road because of increased traffic in that area.

The stop signs would protect traffic travelling on Hampshire Road, Reeve W. Walker said. It would also give some protection to the school children attending Willows School.

## Oak Bay Considers Banning Beach Fires

Oak Bay Council at Wednesday's meeting seriously considered banning the lighting of fires on the Willows Beach, in order to prevent the recurrence of an accident involving an 11-year-old child who suffered from serious burns caused by sand-covered smoldering ashes.

Councillor George Murdock told the meeting the accident was due to irresponsible people who had failed to observe the regulations with regard to the putting out of fires on the beach with water. The regulations forbid the extinguishing of fires with sand.

He said a child playing on the beach recently had stepped on some smoldering ashes which were covered with sand and hidden from view. She was taken to hospital in a St. John ambulance suffering from serious leg burns.

"If the public can't observe the regulations then we should prevent the building of fires on the beach," he said. "This is the sec-

## Seek Oak Bay Approval Of Plan For Hundred Homes

Oak Bay Council at its next meeting will be asked to make a decision on a request made by the Canadian Legion to permit Wartime Housing Limited to erect at least 100 rental housing units for veterans in the municipality.

In a letter submitted to the council at Wednesday's meeting, the Victoria District Council of the Canadian Legion, called upon the council to meet representatives of the Wartime Housing Limited to discuss the various phases of providing housing for veterans.

### FOR NEXT MEETING

The Council took no definite action, however, due to the absence of a councillor and postponed the matter until the next meeting.

"Read the letter carefully," instructed Reeve W. Walker. "It is something the council will have to decide at its next meeting."

In his letter to the council, the Canadian Legion disclosed there were still many hundreds of people in Greater Victoria who were involuntarily living or sharing sub-standard accommodation, and were in absolute need of rental housing.

"We believe, like yourselves, there must be an opportunity for every Canadian family to enjoy a decent house and a healthy neighborhood environment so that our nation will have healthy, vigorous and stable citizens of the future," it stated. "In meeting his very needed housing situation, we realize that the building of housing by private individuals would assist to a great extent, but the construction cost for building a private home has skyrocketed to such an extent that it is beyond present economic consideration or means."

### JOINT PARTICIPATION

The Legion said the costly housing construction outlay could be accomplished through the federal government plan which had made it possible for Canadian municipalities to apply for joint-participation in providing needed rental housing with the Government-owned Wartime Housing Ltd.

It pointed out there were many veterans in Oak Bay who were in dire need of homes and expressed the hope the council would

## Tax Collections In Oak Bay Higher

In a financial statement for the first half of 1947, R. F. Blandy, secretary-treasurer, reported at a meeting of Oak Bay Council Wednesday that expenditures to date stood at \$262,095, which represented more than half the year's estimates. The total estimates voted for the year were \$482,459.

On the receipt side, Mr. Blandy said taxes were up \$41,000 compared with 1946, but the levy was \$45,560 greater. He also mentioned there was a sharp falling off in tax sale lands and interest, as was foreshadowed at estimate time.

Tax collections as of June 30 were \$313,616, he said. The percentage of current taxes paid was slightly higher than last year, while receipts from arrears had now become a minor factor.

"We are now free from debt to the bank," he added, "but cash on hand is lower than usual because of advances on capital accounts—some \$60,000. These can be adjusted in the next few weeks."

## 45 Drowned

GENOA (AP)—Forty-two children drowned when a boat in which they were sailing struck an underwater fortification, overturned and sank near Loano, southwest of Savona off the Ligurian coast.

Forty other children in the boat, the property of a summer vacation camp, were saved by coast guardsmen and fishermen. Two of four teachers were drowned and a third is missing.

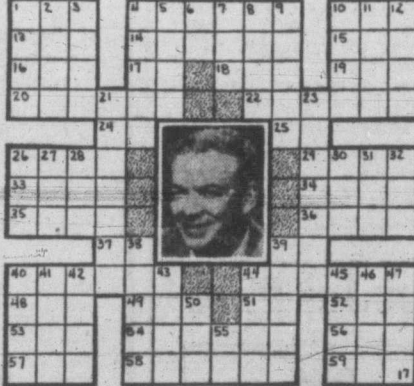

### Woman Journalist Dies

NEW YORK (AP)—Mrs. Laura Comstock Dunlap, 92, one of the first women journalists in the United States and author of books on journalism and church affairs, died yesterday.

## Telephone Exchanges Are Finding the Going Tough

### Equipment shortages interfere with service

Whether they are dial telephone offices or ones with switchboards served by operators, telephone exchanges in most communities are having a tough time of it these days.

Owing to the factories being overwhelmed with orders, we can't get dial equipment and switchboard fast enough. And as we want to give service to as many people as possible as fast as possible, we are connecting more and more telephone lines to the existing equipment. Naturally this overloading tends to interfere with the service, as the dial switches and the operators have more and more calls to look after.

Added to this problem is the fact that in most exchanges having switchboards, the operators are less experienced than formerly and therefore cannot handle calls as fast. We cannot add more operators to compensate for this as we cannot get the necessary additional switchboard.

We are doing our best to clear up the situation as rapidly as possible and have a \$35,000,000 five-year plan of improvement and expansion under way in British Columbia. The great difficulty is to get deliveries of equipment.

The  
DOCTOR  
Says:

## PENICILLIN HELPS HEART INFECTIONS

By WILLIAM A. O'BRIEN, M.D.

Encouraging records of the beneficial effects of penicillin in the treatment of heart infections (endocarditis) continued to appear. Before penicillin, it was rare for anyone to recover from either acute or subacute bacterial endocarditis.

Patients with endocarditis usually complain of fever, pallor, and weakness. The disease may start insidiously or it may follow an upper respiratory infection. In most cases the patient does not realize that his heart is infected until the physician, in the course of his examination, discovers a murmur. Examination of the blood discloses the germs which originate from the infection inside of the heart.

Lining membrane of the heart is seldom infected unless it has been previously damaged by rheumatic fever. Following rheumatic fever, the roughened lining of the chambers or covering of the valves may act as germ catchers. When infection occurs, clots form on the ulcerations. Pieces of the clots may break loose and cause difficulty in other parts of the body.

When sulfa drugs were discovered, it appeared that a remedy for endocarditis had been found but it only checked it for a time. When the treatment was stopped, the germs would reappear.

## DRUG DESTROYS GERMS

Today penicillin is the treatment of choice. As soon as a diagnosis of endocarditis is made, penicillin should be injected into the veins or in the muscles. Continuous injections by vein help to destroy all the germs before they have had a chance to redevelop.

Treatment is continued for at least four weeks after apparent recovery. If any signs or symptoms indicate that there is a recurrence, penicillin should be administered at once.

Sixty to 70 per cent of the patients with the usual variety of endocarditis are reported to have been cured by penicillin, and from 10 to 50 per cent of the less common types have also been cured.

Question: Is radium treatment of the throat of value in the treatment of all types of hearing loss?

Answer: No. It helps most cases of tubal deafness but will not help cases of otosclerosis, nerve deafness, or those which result from destruction of the ear.

## Uncle Ray

## MERCURY FREEZES AT 39 DEGREES BELOW ZERO

Many cities are able to take good care of the snow which falls in winter. With snowplows and with shoveling they get the snow out of the way after each storm, and the life of the city goes on smoothly.

Some cities, however, fail to handle their snow very well. Because too much snow falls, or because of a poor system of handling the snow, streets become blocked to a certain extent. People may have to wait two or three days before conditions are good for driving through the city.

At times there are icy streets, and these bring special dangers. If an automobile is going fast, it slides ahead for a long distance after the brakes are put on. Thanks to the fact that most motorists know that they must drive slowly when the streets are icy, there are few accidents from this cause compared to what there might be.

The worst condition of icy streets is likely to come when there has been a rain, or a time of melting snow, followed by freezing weather. This often comes when the temperature is within easy range of the freezing point, being a little above at one time and a little below later.

High clouds send down snow, and the snow may fall for a mile or so before it strikes warmer air and turns into rain. Even in summer we are apt to get some of our rain when clouds two miles above the ground send down snow which melts on the way.

The freezing-point of fresh water is 32 degrees above zero Fahrenheit, or zero degrees Centigrade. The Centigrade thermometer is used by scientists, but in this country the custom is to use the Fahrenheit scale.

The liquid metal known as mercury, or quicksilver, is used

in many thermometers. It will freeze at 39 degrees below zero Fahrenheit. In places where the temperature falls as low as that it is better to use alcohol in a thermometer. Alcohol will remain a liquid until it gets down to 180 degrees below zero Fahrenheit.

Downward Trend of  
Land Sales Continues

Land sales in Victoria continued their downward trend ac-

ording to figures released today from the city assessor's office. During June there were 207 parcels of property sold for \$1,034,937, compared with 214 parcels sold in May for \$1,042,045, and with 261 sold last June for \$1,378,477.

There were 43 transfers of property completed during the month valued at \$165,820. During June 27 wills were probated for \$101,877.

Total transactions recorded for June were 277, for a value of \$1,302,634.

## Confusion At Home

Cleveland's George Metkovich, scoring on a squeeze play after breaking for home with the pitch, almost upsets teammate, batter Jack Conway, who singled, Metkovich came in so fast and quick, Conway had to jump over Metkovich getting to first. Berra, N.Y. Yankee catcher, looks on in amazement.

## Eastern Net Stars Sweep Four Matches

Play continued yesterday in the west-east Davis Cup trials at the Victoria Lawn Tennis Club. It was a big day for the easterners as they won four but of the five scheduled matches.

As was the case Tuesday the two Mackens, Skelton and Stohlberg provided most of the entertainment for the mid-week gallery.

Results of yesterday's matches follow:

Walter Stohlberg (W) beat Jim Macken (E), 6-4, 3-6, 6-4.

Brendan Macken (E) beat Jim Skelton (W), 6-4, 6-4.

Henri Rochon (E) beat Don Hodges (W), 6-2, 6-2.

Don McDiarmid (E) beat Art Jeffery (W), 6-1, 6-1.

B. Macken and Jim Macken (E) beat W. Stohlberg and A. Skelton (W), 4-6, 6-4, 6-1, 6-4.

Brendan Macken and Skelton indulged in a backhand driving duel in which the western man came off second best, dropping a pair of 6-4 sets. Skelton had an early lead in the first set but was unable to consolidate his position due to Macken's strong play off the ground. The Montrealer ran up a 3-0 in the second set only to have Skelton overtake him with his best play of the match. Macken broke Skelton's service in the ninth game to lead 5-4. Serving strongly he won the match in the next game but not

before Skelton had forced him to his fifth match point.

Walt Stohlberg of Vancouver gave the west their only win of the day when he outlasted Jim Macken in three sets, 6-4, 3-6, 6-4. Both men put on a good exhibition of hard hitting. It was interesting to note that this pair were nearly through their third set before the elder Macken and Skelton had finished two.

Dynamic Henri Rochon still seemed to be the class of the men's singles field as he bowled over Don Hodges of Regina, 6-2, 6-2. Hodges, Tuesday's upset winner over Don McDiarmid, was never given a chance to get started in his driving and volleying game. Rochon tossed over a bewildering assortment of deep drives and cunning drop shots, and covered the court in lightning dashes to score winners off Hodges' best shots.

### McDiarmid Wins

Ottawa's McDiarmid scored his first singles win of the trials when he let down Art Jeffery of Vancouver with the loss of two games, 6-1, 6-1. Jeffery still failed to show any semblance of form and McDiarmid contented himself by not forcing the pace and keeping the ball in play until his western opponent fell into error.

The Macken brothers proved themselves to be a first-class doubles team when they bested Skelton and Stohlberg in four sets, 4-6, 6-4, 6-1, 6-3. Displaying better all-round team work the eastern pair were never in danger after the loss of the first set.

The opposing teams take a day's rest today and matches will be resumed tomorrow at 2 and will conclude on Saturday when the number one man from each team will oppose each other. Singles play tomorrow and Saturday will be the best-of-five-set matches.

## Crack Shots Coming For Week-End Tourney

At the Albert Head Road grounds of the Victoria Gun Club this week-end, Victorians will have an opportunity to see some of the crack marksmen of the Pacific northwest vie against each other for the fine prizes at stake in the No. 1 clay-busting scattergun classic of the year on the local scene.

The club's sixth annual B.C. title tournament of the shotgun and clay targets will get underway at 10 Saturday morning and continue until the evening hours. It will resume the same time Sunday.

To give visitors opportunity to get a little acquainted with the club ranges, officials have decided to throw the grounds open to practise shooting all day tomorrow and one hour before the competitions start on each tourney day.

In addition to the 500-odd local shots who are expected to participate, club officials have secured assurances Vancouver and New Westminster contingents will be over. Nanaimo and Duncan gun clubs and other island club marksmen have been invited to attend, as have clubs in other parts of the province.

Some fine "killers of the clays" have announced they will be up from south of the border. A number of them are already in town, according to Speed Olson.

### CHARLIE MORTON WITH VISITORS

Among those who have arrived is Charlie Morton, Yakima flash—the cigar-chewing shooter who last year breezed through with a 98 out of 100 to take the U.S. laurels in the non-resident bracket of the provincial title 100-bird event. He is present Washington State skeet champion. Al Sundt is up from Mount Vernon and Stewart Prey from Wenatchee, a veteran tournament marksman. Dr. E. Leonard is down from Trail for the meet.

From New Westminster will come the Cooper brothers. It was Frank Cooper who won the 100-bird provincial B.C. resident championship in last year's meet from Ernie Todd. He beat the Victoria veteran of the ranges in a shootout after they had

CHARLIE MORTON

wound up all even with 100 targets.

Interest in this meet is centered on the skeet 100-bird crown shoot for residents of the province, the feature event on the two-day show.

The locals are especially looking to Ted Bailey in this number on the schedule. Bailey is the present holder of long-run skeet and trap trophies in the club. Jack Roach was crowned B.C. all-round trap champion with a 181x200, while vice-president Russ Horton broke 98 out of 100.

There are a number of international team shoots on the agenda for the two days. Saturday will be devoted to trap competitions, while Sunday shooting will put the spotlight on the skeet ranges. However, shooting will take place on all layouts on both days.

An added attraction to the 1947 tournament is the high gun, all-gauge open event for the British Columbia championship.

## Graziano Batters Way To Middleweight Title

CHICAGO (AP) — Rocky Graziano, tough, tousle-haired youngster from New York, last night reached the top of the middleweight boxing heap when he battered world champion Tony Zale to pitiful helplessness in Chicago Stadium.

The Rock, fighting to redeem himself from the stigma of suspension in his native state, was declared winner on a technical knockout two minutes and 10 seconds after the start of the sixth round.

The finish came at almost the exact stage that the 33-year-old Zale had come from behind to knock out Graziano, eight years younger, in their first engagement in New York last Sept. 27.

Last night's savagely-fought battle, scheduled for 15 rounds, was witnessed by a sweltering, howling crowd of 18,547 which established an all-time indoor gate by paying \$422,918.

Zale got about \$130,417 for his end and Graziano \$65,208.

Zale, champion since 1940, came to the end of his trail suddenly. Up to the end of the fifth round, two judges and referee Johnny Behr had voted him leading on points by a safe margin

for carrying the attack to the challenger. Zale had gashed a cut over Graziano's left eye; his right eye was rapidly closing and his nose was bleeding and cut.

Zale started to wilt in the fifth. Then came the dramatic sixth and finish.

Zale stabbed with a left in a vain attempt to halt Graziano's charges but Rocky swept in and Zale, completely helpless, sagged under to top strand of the ropes. The New York battler followed up, attempting to hammer Zale as he hung there, but referee Behr pulled him away.

As the timekeeper shouted "three," Behr pushed Graziano to a neutral corner and ended the fight.

## Mad Scramble Shapes For Canadian Open Golf Title

TORONTO (CP)—Some 24 of the 152 golfers competing yesterday in the opening round of the \$10,000 Canadian Open championship managed to scatter Scarborough Golf Club's par 71, proving in the process that if any one of them runs into an extended hot streak with his putter it will take a jig-saw puzzle addict to put the pieces together again.

And the hottest putting streak among the top two dozen lasted for only nine holes, long enough to give tenth place U.S. money winner John Palmer of Badin, N.C., the lead with a five-under-par 66.

Crowding Palmer for the lead were three 67's, posted by former tennis star Ellsworth Vines of Los Angeles, Clifton Haefer of Charlotte, N.C., and amateur Nick Wisnack, a former Scarborough member now playing out of Detroit.

Only two strokes off the pace was South Africa's favored Bobby Locke, who strung together 15 pars and three birdies for his 68. Tied with him was the man he defeated in the recent Chicago Tam O'Shanter tournament, Ed (Porky) Oliver.

Rated the most gifted putter of them all, Locke couldn't keep his woeen-shafted club hot after using it to pick up two birdies on the first five holes.

Seven tied with 69's, including top-rated Canadian pros Stan Leonard of Vancouver and the host club's Bobby Gray, both of whom were frankly disgusted with their putting. Bracketed with them were Chicago's Jimmy Thomson, Herman Keiser of Akron, Ohio, Ky Laffoon of Chicago; George Peyton, Newport News, Va., and amateur Skeel Reigel of Upper Darby, Pa., they also complained of putter woes.

There was an 11-way tie for one-under-par 70 with United States open champion Lev Worsam heading the list. Thirteen more came in with par.

Freddie Wood of Vancouver checked in with a disastrous 81 as a result of a first nine 45 which he described as "the worst nightmare I ever suffered."

## Sports Mirror

By PETE SALLAWAY

DOWN Edmonton way Victoria southpaw hurler Stan Curry is doing right well for himself. The rangy pitcher who received a try out last season with the Victoria Athletics but failed to make the grade, has come up with three successive shutouts to become the first moundsman in the Calgary-Edmonton league to turn the trick. The local boy, one of several Victorians performing in the prairie circuit, has received much favorable publicity from Alberta sports scribes and bids fair to rank as the number one hurler in the league. Sunday games in the prairie league are attracting crowds of 5,000 in Edmonton.

IN the mail today was a note from Ed Harris well-known member of the Western International League umpiring staff last season and working this year as a regular official in the Sally League. Included was several clippings of the recent all-star game played at Columbus between the league-leading Columbus Cardinals and a league all-star club. Harris worked in the game along with Rice, another former W.I.L. umpire, also officiating in the class A circuit. Harris sends regards to his many friends in Victoria and winds up with: "I hope your ball club draws 150,000 this season."

ALWAYS a keen student of basketball, Art Chapman appears headed for his first role as a manager. The lanky veteran, who sparked several Victoria teams to national championships and was always recognized as one of the smartest tip off men developed in Canada, is slated to take over managerial reins of the Vancouver club in the Pacific Coast pro circuit next season. He should be a good man for the position. No one knows basketball better than Art and, providing he gets the material, Chapman will provide Vancouver with a contender.

CHAPMAN'S ability to stay up in top notch basketball as a player in recent years is amazing in that more often than not he couldn't see the basket he was shooting at. Art has suffered from eye trouble for several years and although his opponents were seldom aware of the fact most of Chapman's shots were on pure instinct. That is why he always proved so deadly in games played at the Victoria High School gym. Art knew the court so well he could always determine his position on the floor and shoot accordingly. Chapman's scoring ability is the more remarkable when one realizes he was actually shooting blind most of the time.

## Navy-Gasmen Tie In Amateur Ball

That old adage, "the lucky seventh" held good for Macintosh's Navy nine last night as they came from behind to score three runs to end up all square with Pitzer and Nex, 6-all in nine innings.

Bob Barlow opened on the hill for the Navy lads, but was chased to the showers when four runs crossed the dish with only one away in the first. Bespeckled Moe Tudor took over the mound duties and pitched well, limiting the gasmen to a pair of unearned runs and five singles. Tudor fanned 11 and passed four.

At Turcotte was manager Rosy McLellan's choice for the heavy work, and the young right-hander went along smoothly until the seventh when a touch of wildness caused his downfall. Turcotte was nicked for only five hits and he struck out, four, but gave up 10 runs, five of which came in the seventh. McLellan took over and completed the last two and a third innings.

Dan Wilson knocked in four of the bluejackets six runs while Don Robinson drove in three for Pitzer and Nex. Robinson topped the hit parade with three for five, while McLellan and Kubick wound up with two for four.

Next game in the McGavin Cup race will bring together Pitzer and Nex and the league-leading Eagles at Macdonald Park Friday at 7.

## Woop, Cavalli, Mastro Share Victory Honors

Victoria Athletics today had "Three Musketeers" to thank for a thrilling lone-run victory over the W.I.L. leaders, Bremerton Bluejackets, last night, 9 to 8. Pitcher Bill Woop, shortstop Johnny Cavalli and catcher Vic Mastro all occupied the spotlight as the local club came from behind an 8 to 0 deficit to finally win in the last of the ninth and send 2,100 fans home talking to themselves.

Wind-up in the ninth was a spine-tingler. With the score deadlocked at 8 to 8 and their old nemesis, Hub Kittle, literally pitching his head off for Bremerton in a relief role, and one away Johnny Hooper worked Kittle for a walk. Bill Woop rolled to the pitcher and Hooper was cut down at second but slid in fast enough to break up the double play. Mastro sliced one of Kittle's offerings foul into deep right field and the crowd groaned. On the next pitch the catcher dusted the right field chalk line for two bases and the long-legged White romped across the plate with the winning run.

As White scored, Kittle threw his glove into the air in disgust. It was his second defeat at the hands of the A's on successive nights.

### SMART PITCHING

Woop, third Victoria pitcher to see action, pitched himself quite a ball game. Taking over from Joe Blankenship in the fourth the southpaw walked the first two batters to face him, forcing home one run, then settled down to retire the next 16 batters in order. Bremerton never got anything that resembled a hit as Woop received credit for his 10th win against a like number of defeats. With his sneaky fast ball and curve cutting the corners Woop picked himself up six strikeouts.

Jim Arnold started for the A's and, after giving up one run in the first inning, went to the showers in the 4th after three more runners had scored, two of them on Joe Gedzius' home run. Joe Blankenship received the nod but was unable to get the side out and took his shower after four more runs had crossed on a like number of hits and a couple of errors. Woop was rushed in and, after issuing two walks, settled down for a brilliant relief chore.

After the A's had picked up three more runs on no hits in the fourth they added a single in the fifth to set the stage for Cavalli's hero act. In the eighth Bill White and Mastro singled and Harshman walked to load the bags. White scored as Jensen forced Harshman to the plate and lined John Marshall's first pitch over the left field fence and the score was tied. That brought in Kittle who picked up three straight strikeouts before disaster overtook him in the fourth.

Teams play again tonight with Dick Mitchell scheduled to start on the mound for Victoria.

Bremerton saw its first place margin over Spokane cut to two full games as the Indians split a doubleheader with Yakima. Spokane dropped the opener 9 to 8, then salvaged the finale 10 to 6.

Wenatchee observed its first game under manager-pitcher Chuck Cronin with a 12 to 10 verdict over third place Salem, and sixth place Vancouver edged Tacoma 13 to 12.

Short scores follow:

Tacoma, 12 to 14, 4

Vancouver, 12 to 14, 4

Batteries—Timmer, Chetkovitch (6); Barlow (6) and Clifford; Hall, Hedgecock (9) and Sumrell.

Wenatchee, 10 to 9, 2

First Game:

Yakima, 9 to 11, 8

Spokane, 8 to 11, 2

Second:

Yakima, 10 to 9, 2

Spokane, 10 to 9, 2

Score by innings:

WENATCHEE, Wash. (AP)—Buddy Ryan, who managed the Wenatchee Chiefs to a Western International League pennant last year but whose team is now 25 games behind

## Victoria Area Medical Officers Discuss Action On Polio Suspect

Medical health officers of the Greater Victoria area are not unduly alarmed at the report of one suspected case of poliomyelitis in the city, Dr. J. L. Murray Anderson, medical health officer, reported today.

There is still no confirmation as to whether or not the male adult, who was admitted to St. Joseph's Hospital late Wednesday, has the disease or not. It may take several days before a definite diagnosis can be made unless muscular involvement occurs, Dr. Anderson said.

In view of the epidemic in the Greater Vancouver area the health officers of Greater Victoria held a special meeting Wednesday and in a joint statement stressed that the occurrence of a few polio cases is usual each summer in any metropolitan area.

and the presence of a few cases does not necessarily mean an epidemic will follow.

They warned the public to watch for suspicious symptoms such as acute headache, fever, gastro-intestinal disturbances, and any pain, stiffness, or soreness in the muscles. If such symptoms persist a doctor should be consulted immediately.

The health officers also warned against the consumption of unsafe water, unpasteurized milk, over-exertion and extreme fatigue, and swimming in water which may be polluted. They advised that in summer camps or areas not served by sewers that careful attention be given to the disposal of human sewage and garbage, and protection against flies.

## Want Trees Trimmed For Better Light

In order to provide better lighting the street lighting committee will ask Monday's City Council meeting to approve the drastic trimming, limbing-up and possible removal of trees growing on Maud Street, Laurel Lane and Regent's Place, Ald. F. G. Muller, chairman, said today. He stated that if the foliage were removed existing street lighting fixtures in the area would give better distribution of light.

He will also recommend to Monday's meeting that approval be given for the purchase of 120 ornamental street lighting brackets for Gorge Road, Esquimalt Road and Craigflower Road, at a cost of \$1,382. He said the funds would come from the \$108,000 voted by citizens for street lighting purposes a year ago.

The federal government has requested the return of the anemometer and anemograph which has been at Gordon Head airport site from December, 1945, until now to show the velocities and directions, Ald. B. J. Gadsden, chairman of the aviation committee, said today. The equipment was on loan.

## B.C. Coal Output Increased In June

Output of coal from B.C. collieries during June was 126,360 long tons, an increase of 12,923 tons over the June, 1946, production of 113,437, according to figures issued by the B.C. Department of Mines.

However, coal production on Vancouver Island fell from 41,855 tons in June, 1946, to 39,500 this June. Only large mine to show an increase on the island was No. 10 Mine, South Wellington, where production rose 16,266 tons to 17,838.

The five-man Arena Commission will hold its first meeting at the City Hall today. Purpose of the meeting is to elect a chairman and start work on the administration of the Memorial Arena. On the commission are B. R. Ker, Douglas Fletcher, John Baxter, Dr. A. Poyntz and W. Bridgwood. Among the first duties of the commission, after it has named its chairman and secretary, will be the selection of a manager for the arena and also the discussion of the granting of a hockey franchise. It has been rumored that professional hockey will start here even if the arena is open only for the latter part of the season.

**FOUR WOMEN DENTISTS**—Among 75 graduates of the faculty of dentistry who received degrees at Convocation Hall of the University of Toronto on Monday were these four women, left to right, Eleanor Cornish, Ingersoll, Ont.; Campton Klassen, Prince Albert, Sask.; Ruth Dundas, Toronto; Ellice Weir, Sydney, Australia.

## New Attempt Made By Indonesians To Avert Actual War

BATAVIA (AP)—Acting Foreign Minister Tamsil of the Indonesian Republic flew to the republican capital of Jogjakarta today in an effort to resolve new differences between his government and Netherlands authorities which threatened to precipitate war in Indonesia.

Tamsil indicated he would ask Republican Premier Amir Sjarifoeddin to clarify the policy connotations of a radio speech earlier today which the Dutch interpreted as meaning that Sjarifoeddin had rejected their compromise plan for the government.

A Jogjakarta dispatch said a Republican parliamentary working committee had rejected unanimously a Dutch proposal for future policing of the Republic, embodied in the plan.

One high-level Netherlands informant said the Dutch were expected to decide before nightfall whether to undertake military action against the republic. He indicated that such action was extremely likely.

This informant declared a new crisis of "extraordinary gravity" had grown out of Sjarifoeddin's refusal to issue a cease-fire order to Indonesian forces Wednesday night. He said this broke a pledge the premier had made Wednesday.

## Athletics Players To Assist In City Playground Programs

Top item of news for baseball-minded youngsters taking part in the city and district summer playground program is the plan for four members of the Victoria Athletics to give practical demonstrations at two of the playgrounds Friday.

Ted Norbert, manager, will be on hand at Central Park at 10.30. He will give a talk on baseball, as well as demonstrating some of the finer points of the American national game.

Vic Mastro, team's leading hitter, Bob Jensen, last year's W.L.L. strikeout king, and Babe Jensen, third baseman and brother of Bob, will be at Bullen Park at 2. They will assist the youngsters with baseball problems and give out helpful tips on batting, pitching and catching.

Tennis classes under Carl Brand, president of the B.C.L.T.A., are proving popular, drawing an average attendance of 85. Sixty of the youngsters were guests of the Victoria Lawn Tennis Club at the Victoria city finals last week. Miss Valerie Scott spoke on different strokes used in the game following the showing of a film in the Teen Age Canteen this week.

Other items proving popular in the varied program are horizontal bar exercises under Gor-

don Hartley and the medicine ball conditioning exercises.

Inclement weather canceled the fancy-dress parade at Oak Bay but it has been rescheduled for Willows Park Friday between 2 and 4. Michael Kendall will be master of ceremonies. Judges will be Mrs. J. Ewing, Mrs. E. Evans and T. S. Whitmore.

A special open night will be held at Bullen Park tomorrow with a public address system available for community singing. At Central Park young carpenters are busy making playground equipment such as stilt and bats.

## Seek 'Mad Flier' In Northern B.C.

FORT ST. JOHN, B.C. (CP)—A man described as a "mad aviator" is being sought by B.C. Provincial Police today. Officials said the man took a civilian plane, owned by W. J. Winnick of Vegreville, Alta., from an unlicensed field here and went on a joy ride.

The aviator dive-bombed a speed boat on Charlie Lake, touching water at times, although it was equipped only for landing on wheels, and missed farm house chimneys by what seemed a matter of inches.

## International Boat Race To Be Held In Victoria In August

Yachtsmen from Vancouver, Maple Bay and Seattle will be in Victoria for the week-end Aug. 16 and 17 to participate in the 2nd Pacific Northwest District Lightning Championship race, sponsored by the Royal Victoria Yacht Club.

Three races will be held during the week-end at Cadboro Bay with more than 15 boats expected to participate, according to Grant MacKinnon of Victoria, secretary of the Pacific Northwest Lightning Race Association. The race is opened to all lightning fleets of which there are three in British Columbia. They include fleet 64 from Maple Bay, Fleet 90 from Vancouver and fleet 66 from Victoria.

The race will be of particular interest to Victorians as the present district champion is Eric Dowell, who won the lightning class race at the Seattle Regatta on July 1. The local fleet champion is Grant MacKinnon.

The Royal Victoria Yacht Club was responsible for organizing lightning boats into fleets in the province in 1945. The boats since then have increased in popularity and it is expected that within a few years there will be scores of fleets organized in British Columbia and the United States.

Victorians with their boats who will participate in the race are as follows: Eric Dowell, Ariel; Grant MacKinnon, Iona; Walter Thomson, Ripples; Rod Fraser, Hardtack; Ron Kiley, Clipper.

## Sliced Bread Sale Still Restricted

The foods administrations of the Wartime Prices and Trade Board has written the City Council indicating the restriction on the sale of sliced bread will not be lifted until the paper shortage has eased.

It was explained by F. S. Grisdale, co-ordinator, that sliced bread requires a double wrapper and therefore uses, by weight, slightly more than twice as much paper as an unsliced loaf. He stressed that for "some time past the supply of paper suitable for bread wraps has been short and this shortage still continues."

He promised that the city's resolution asking for the easing of the restriction would be noted when the question came up for reconsideration.

## Overnights At Lansdowne

Lansdowne Park race entries, July 18:	\$800, four-year-olds and upward, one mile and one-sixteenth:
First race—Claiming, purse \$800, four-year-olds and up, foaled in Canada, six furlongs:	*Bon Ville (Atkinson).....114
Sir Broxa (J. W. Bailey).....120	Sambo (Kerr).....117

Polly Wales (Marsh).....115	Beach Drive (Connell).....115
Weather clear. Track fast.	*Apprentice allowance claimed.

## 16 Petitions Made For Plebiscites On Beer Sales In B.C.

For the first time in seven years, local option plebiscites on sale of beer by the glass will be held in B.C. this fall, according to Attorney-General Gordon S. Wismer.

Sixteen petitions seeking beer votes now are being checked by the liquor authorities as a preliminary to arranging for balloting. Among them is one seeking sale of beer by the glass in Sidney. This is the only Vancouver Island application, the Attorney-General said.

The government is also planning to submit plebiscites in some cases on veterans' beer licenses.

Mr. Wismer said the applications represented a backlog from was decided, no plebiscites would be held. So far, no applications have been received from "wet" areas seeking to go "dry."

A petition qualifying for approval of holding a plebiscite requires the signatures of only 35 per cent of the voters in the area concerned.

Last plebiscite held on the island was in Victoria, when on Aug. 24, 1939, a total of 5,942 Victorians voted against sale of beer by the glass, and 3,909 voted in favor.

The plebiscite in South Okanagan, Sept. 15, 1939, was the last held in the province.

## Vote Confidence In Gen. Marshall

SALT LAKE CITY (AP)—State Secretary Marshall had a vote of "faith and confidence" from state governors of the United States today, but he lacked any specific approval of his plan for the economic rebuilding of Europe.

The governors are meeting here in their annual conference. Today they generally interpreted a foreign policy resolution which they had adopted as a reiteration of their faith in the workability of the United States bi-partisan international policy.

The resolution says: "The Governors' Conference hereby asserts its conviction that the foreign policy of this country transcends in importance all partisan, personal or political considerations and should be at all times an American foreign policy, representative of the best in America and representing the United States to the nations of the world as a country that seeks peace and is united in its determination to protect the inalienable rights and privileges that our citizens now enjoy."

This left room "or possible future support of the Marshall European aid plan, but as some of the governors observed it avoided any advance endorsement until the details are known."

## Town Topics

A call from the fire box at Fort and Fern Streets at 8.27 this morning caused city firemen to rush out to false alarm.

City firemen were called out Wednesday afternoon at 5.37 to put out an awning fire aboard the yacht Corsair. The fire was caused by a spark from the ship's funnel. Damage was estimated at \$200.

The question of fire protection for the new veterans' hospital will be discussed by the Saanich Council at its meeting next Tuesday the City Council was informed today by John Tribe, municipal clerk.

Harold Moon, a driver for a city construction firm, was fined \$35 and had his driver's license suspended for three months by Magistrate Henry C. Hall in city police court this morning when he was found guilty of driving an old-model car in a dangerous manner on View Street.

The aviation committee will recommend to Monday's City Council meeting that Ald. B. J. Gadsden, chairman, attend the annual conference of the B.C. Aviation Council being held at Harrison Hot Springs Sept. 18 and 19.

Ald. Edward W. O'Flaherty and Mrs. O'Flaherty of Montreal, called at the mayor's office today. Ald. O'Flaherty met Mayor Percy George at the mayors' convention which concluded this week in Winnipeg. He is staying a short time in Victoria.

Members and ex-members of the Canadian Scottish Regiment have been invited to attend an entertainment at the Bay Street Armories tomorrow night at 8, at which Rev. R. L. Seaborn, former padre of the regiment, will be guest of honor. It was learned today. Invitations have also been sent to members residing at up-island points.

## Second Meeting Opens Tomorrow At Lansdowne Track

After one of the most successful seven-day meets ever held at Vancouver, the second summer meeting under the auspices of the B.C. Turf Club will commence at Lansdowne Park tomorrow, continuing until Aug. 2.

Six stake and handicap events are scheduled during the final two weeks of racing, having a value of more than \$18,000. While close to 700 horses are stabled at the three Vancouver tracks, the cream of the prairie racing flock are heading westward for the balance of the racing season.

Here is a list of the feature events scheduled for the closing meet:

July 19, Michael W. Brighthouse Handicap, one mile and one-sixteenth, \$1,500.

July 23, the Hamber Cup, one mile, \$1,500.

July 26, B.C. Futurity, six furlongs, \$2,000.

July 30, the B.C. Derby, one mile and three-sixteenths, \$3,000.

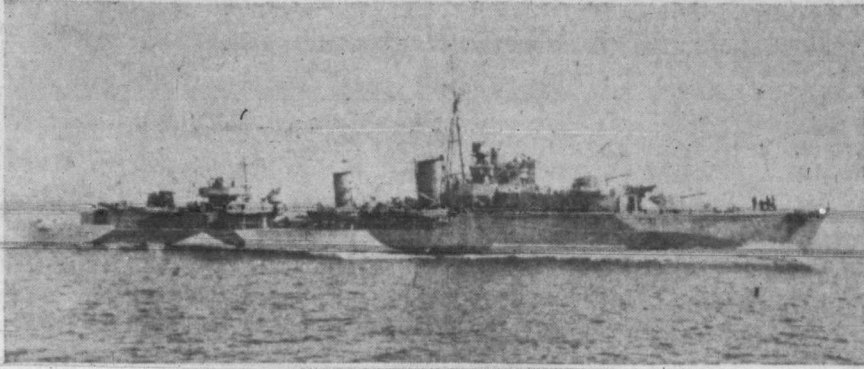

August 1, Minoru Allowance Purse, one mile and one-half, \$1,500.

August 2, B.C. Championship, one mile and three-sixteenths, \$7,500.

The Brighthouse Handicap Saturday should furnish some information as to the ultimate winner of the B.C. championship, as both races are at the same distance. Koroway, from the K. & K. stable of Winnipeg, won the event last year and set a new track record. With track conditions suitable he will be assigned to repeat the performance.

The Brighthouse Handicap is named in honor of the man who at one time owned all the land on Lulu Island of what is now two racing plants, Brighthouse Park (Minoru) and Lansdowne Park.

## Cool Courage, Calm Organization Big Factors In Scenes After Ship Crash

H.M.C.S. MICMAC

HALIFAX (CP) — Stories of cool courage and calm organization that followed the collision of the destroyer Micmac and freighter Yarmouth County were told today by an operations officer who reported he had not picked up the merchant ship on his radar scope.

A yeoman of signals added his word of tribute to his shipmates and declared the destroyer cap-

tain's decision to give a delicate turn rather than "a hard-over" was responsible for keeping the warship afloat and saving many lives.

The two grim-faced sailors—Lieut. John Watters, 22, of Cobourg, Ont., and Yeoman of Signals Gilbert Howe, 25, of London, Ont.—recited their impressions of the crash which resulted in 11 of their fellow crew members being dead or missing and 16 being injured.

Lieut. Watters had finished his lunch and gone into the dark and eerie radar room to take up his post at the scope.

The ship was humming along smoothly and the delicate scope was picking up even fog patches. He could tell this by the signal. Suddenly he picked up a stronger

"blip." He identified it as the Sambro Lightship. Then followed more "blips"—the shore line.

Later the captain asked about conditions. Watters reported through the speaking tube: "The scan is clear, sir."

## Kenney To Decide 7 Points Raised In Laundry Strike

In Victoria next Tuesday, acting Labor Minister E. T. Kenney will sit in a judicial capacity over a hearing to determine seven points which must be decided before prosecution can continue in the Nanaimo laundry strike case in which charges were brought by the provincial government under the new Industrial Conciliation and Arbitration Act.

Mr. Kenney will be sitting in place of the Labor Relations Board, provided for in the act but which has not yet been appointed.

Nanaimo court hearings against the union, three union officials and individual members will be adjourned until the points raised by Magistrate Beevor-Potts have been settled by Mr. Kenney.

After hearing evidence, the acting labor minister will have to decide:

Whether the strikers are actually employees of the company.

Whether the union is a trade union as defined in the act.

Whether the employees are a collective bargaining unit.

Whether the union was bargaining agent for the laundry workers.

Whether the bargaining agreement was a proper one.

Whether the employees were party to the agreement.

Whether the agreement has full force and effect.

### Gallup Poll

## Democrats Make Big Recovery; 55% Of Voters Favor Them

By AMERICAN INSTITUTE OF PUBLIC OPINION

PRINCETON, N.J.—The Democratic party has made impressive gains in voting strength in recent months.

While Alf M. Landon recently declared that Republicans stand a better than 2-to-1 chance to elect the next President, a survey by the Institute finds that a sizeable majority of voters say they would cast their ballots for the Democratic party—not the Republican—if a presidential election were held right now.

The trend of events in the next 12 months may substantially alter the situation. But as of this date the Democratic party runs about as strongly as it did in the last presidential election. Its comeback from the low point of last November, when the party lost control of Congress to the Republicans, has been something of a major political feat. The question now is whether the gains will last.

The party's course is traced in the following table showing the trend of sentiment on the question:

"If a presidential election were being held today, which party would you vote for, the Democratic or Republican?"

	Major Party Vote	% Dem.	% Rep.
1944 election	33.8	45.3	54.7
Aug. 1945	38	42	58
Dec. 1945	47	53	47
Feb. 1947	36	50	50
March	31	49	51
May	27	43	57
Today	55	45	55

The latest figure compares with 33.8 per cent in the 1944 presidential election, when the late President Roosevelt defeated Thomas E. Dewey, and with 35 per cent in 1940 when Roosevelt beat Wendell Willkie.

## A TIRE LIKE THIS

Older tread designs are curved—only part of the tread is in contact with the road. This design limits the gripping power of your tires.

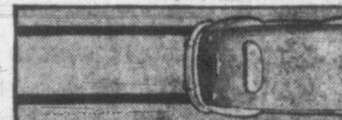

The NEW B. F. Goodrich tread design is FLAT... road-level. The entire width of the tread grips the road. That means greater safety—and better wear!

Older tread design with limited road contact width.

Older tread design under a normal load of five average people. Note the sidewall flexing... which causes friction heat, sidewall-breaks and blow-outs.

NEW B. F. Goodrich Flat Tread has greater road-gripping area. You stop faster... with your car under better control!

Here's a completely new and different tire. It's made of a new type of rubber! developed by B. F. Goodrich. It's designed differently! Engineered differently! Built differently!... all to give you the longest mileage and greatest performance on the road today.

Look at that newly-designed, massive tread. It's flat. Hugs the road. Gives you faster, surer stops and starts!

Look at the newly-engineered, mighty-muscled tire body. It's made 35% stronger! New, stronger cords—and more of them—give it extra stamina. The brand-new shape and design further reduce road flexing. Result—cooler running, longer mileage, and greater safety.

This great NEW B. F. Goodrich Tire has PROVED itself in more than 21 MILLION miles of bruising road tests. At high speeds—under conditions your tires will never have to withstand—it outwore the best pre-war tires with ease. It's the longest mileage tire ever built by B. F. Goodrich!

THIS is the tire you want for post-war motoring. The NEW B. F. Goodrich Tire will give you brand-new wear and performance. It's road-eager and quiet as your shadow. See your local B. F. Goodrich dealer... ask for this great NEW tire, TODAY.

## Veterans' Housing To Be Discussed

Tenants of the Braefoot estate will meet Maj. Gen. G. R. Pearkes, V.C., M.P., early next week in St. Luke's Hall to discuss price reduction of homes on the Saanich Veterans' Land Act project.

Robert Knight, zone representative of the Canadian Legion, has stated the meeting will also discuss bringing the issue before the public accounts committee of the House of Commons.

He said he was hoping the government would appoint a three-man board to examine the defects in veterans' housing projects.

All types of hobbies, from model aircraft making to stamp collecting will be represented at the third annual exhibition of the Pacific National Exhibition in Vancouver from Aug. 25 to Sept. 1. Entries must be received by Aug. 6. Victoria exhibitors may obtain prospectus and entry forms from R. M. Angus, Arcade Bldg., or R. Nairne, 602 Broughton St., or write direct to Pacific National Exhibition, Exhibition Park, Vancouver.

## CAROL LANDIS

Popular stage and screen star says: "It's so reassuring to be really safe with wonderful, new Arrid. It's the only deodorant I've tried that stops perspiration safely, and deodorizes completely—yet is really safe for my skin and clothes."

## New Cream Deodorant Safely Stops Perspiration

1. Does not irritate skin. Does not rot dresses or men's shirts.
2. Prevents under-arm odor. Stops perspiration safely.
3. A pure, white, antiseptic, stainless vanishing cream.
4. No waiting to dry. Can be used right after shaving.
5. Awarded Approval Seal of American Institute of Laundering—harmless to fabric. Use Arrid regularly.

## Young Actress Learns About Type Casting In Hollywood's Way

By BOB THOMAS  
HOLLYWOOD (AP) — Jane Wyman is discovering the way type casting works in Hollywood. As the result of her neat job as Ma Maxter in "The Yearling," all her film offers are for mother roles.

Jane was pencilled in for the role of a 12-year-old's mother in "Christopher Blake," but she has asked Warners to excuse her from it. She does not want to be pigeon-holed in maternal parts. Instead, she would like to go ahead with "Johnny Belinda," in which she would play a deaf mute until the final moments of the picture—a la "Spiral Staircase." Groucho Marx apparently is contented about his debut as a single in "Copacabana." He has made it known he's available for more appearances without his brothers. Phyllis Calvert has to finish "My Own True Love" and be out of the country by Oct. 11. Otherwise she will overstay her six-

month permit and have to pay both a British and a U.S. income tax. . . . Maureen O'Hara's plans to appear in "Out of All Time" for R.K.O. in England have hit a snag. Britain has indicated it wants either the leading man or director to be an Englishman. . . . Clark Gable is back in town and he must be happy over the way "The Hucksters" turned out. Clark wants to charter a boat for a fishing trip down Mexico way. He will start work on "Homecoming" Aug. 15. . . .

Jack Carson is getting to be known as "available Carson" around Warners. After "Romance in High C," he'll do "Barbary Coast," a story of 1910 San Francisco (what — no earthquake?). Then "Forever and Always." Although his contract calls for three a year, Jack doesn't mind the extra work. The bonus dough gladdens his heart. "I Wonder Who's Kissing Her Now" (T.C.F.—105 minutes) is a musical biography along the lines which should be familiar to moviegoers by now. Adhering to the old-style formula, it offers some old Joe E. Howard tunes embellished with color. Mark Stevens and June Haver head an uninspired cast.

## Hollywood

By ERSKINE JOHNSON  
HOLLYWOOD (NEA) — So you'll soon be building and then decorating that postwar dream home. Well, you'll probably do something wrong and spoil everything. People always do, according to Hollywood's art directors. So today we're going to let some of Hollywood's top art directors give you some tips really to make it the home beautiful, and not a mess. Homes, says Stanley Rogers of M-G-M, haven't kept up with the scientific progress of the world. "Homes," he says, "are too drab—we need more imaginative use of color. We need to let our imaginations create house plans which are adapted to our particular needs and interests, not in accordance with the house of neighbor Jones or neighbor Smith."

Rogers' advice: "A feeling of spaciousness can be achieved by building a house of one or two large rooms instead of five, six or seven tiny ones."

Common errors of home decoration, says Jerry Pycha, are "the improper use of figured patterns in draperies, wallpapers and carpeting, which unbalance the size of the room. All figures and patterns should be more or less in proportion to the size of the room."

"Lamps are over-elaborate, there is usually too much furniture, which is also too large."

Art director Rudi Feld is opposed to too much color in a room, in furniture or in wall-paper. He says:

"If the room is too cluttered the individual pieces of furniture lose their individuality and their silhouettes."

"Furniture should be left in its natural color so that the personalities and clothes of the people who enter the room do not clash with the color scheme of the decor."

Don't over-emphasize curtains, drapes and Venetian blinds, warns Stanley Fleisher of Warner Bros.

"The average person," he says, "strives for a formal and symmetrical arrangement of furniture which is not suited to rooms today." He adds: "Oil paint with a shiny surface should never be used on walls."

The room color, advises Rudolph Sternad of Columbia, should be planned in relation to the amount of sunlight. He says:

"Rooms with full sunlight can use strong color, light or dark. Rooms with reflected sunlight should use sunlight illusion colors such as yellow. The rooms should be planned to harmonize in color to the adjoining rooms, so that views from one room to another will not clash."

S. H. Okell, assistant district administrator, Department of Veterans' Affairs, announced today that starting next Monday D.V.A. offices will close at 4:30 each afternoon, but that a skeleton staff will remain on duty until 5 o'clock to care for inquiries. Under the new arrangement, the staff luncheon period, now one and a half hours, will be reduced to one hour. Mr. Okell said there are comparatively few callers after 4, and the new hours of work will be tried out until the end of August, when the situation will again be reviewed.

## Photographers Study Form In The Outdoors

—Photo by Gar Dixon.

Members of the Victoria Camera Club are holding a summer school of photography and last Sunday they visited Mount Douglas Beach, and their subject was Miss Donnie Ricks, local dancer, shown posed atop the rock with the camera folks focusing on her. Among those in the class, which was conducted by Ken McAllister, were: Irvine Dawson, president of the club; Ben Hill-Tout, Ted Hill-Tout, Mrs. Betty Kerkham, Miss Clarice Hill, Mrs. Gladys Boas, Peter Mellander, Ted Canavan, Tom Hallett, Vic Nunn and Dr. J. S. Cull. During the summer other well-known local photographers will conduct lectures and outdoor exercises for the club.

## Huge Escalator Built For Film

A massive film prop costing \$100,000 and weighing 85 tons is one of the features shown in the exciting technicolor hit, "Stairway to Heaven," a Universal-International release now at the Oak Bay Theatre. It is an escalator of 266 steps, 20 feet wide, that in the film extends from the earth to the "Other World." A crew of engineers worked three weeks to construct the giant mechanical prop.

Co-starring David Niven, Raymond Massey and Roger Livesey with Kim Hunter in the romantic lead and Marius Goring heading the long supporting cast, "Stairway to Heaven" was produced, directed and written by Michael Powell and Emeric Pressburger.

## PLAZA THEATRE

There have been several screen versions of the immortal novels of Charles Dickens, but it is true to say no film captures the real spirit of that great writer than does the Cineguild production of "Great Expectations," now showing at the Plaza Theatre. Starring in the film is Valerie Hobson, who departs from her usual delightful facile performances in modern light comedy to play the dramatic role of Estella. John Mills brings to life Dickens' very understanding and likeable young man Pip, and Finlay Currie portrays the difficult part of Magwitch with true dramatic intensity.

## CAPITOL THEATRE

Many of the flying anecdotes which form scenes for Paramount's aviation epic, "Blaze of Noon," are based on occurrences during early mail days. Capt. Ernest K. Gann, who wrote the best selling novel from which the picture was adapted, is himself a flier with more than 1,000,000 air miles to his credit. "Blaze of Noon," currently at the Capitol Theatre co-stars Anne Baxter, William Holden, Sonny Tufts, William Bendix, Sterling Hayden and Howard DaSilva. The sky saga was directed by John Farrow and produced by Robert Fellows.

## Sockeye Fishing Good In North

Weekly salmon pack bulletin of the federal fisheries department indicated today sockeye salmon fishermen in the north were experiencing the second best year recorded during the past six years.

Pack to date this year has been 50,024 cases of sockeye, compared with 33,274 cases at this date last year and 76,494 cases at the same date in 1945.

Canning operations on other species of salmon have been small, the total pack of all salmon species to date this year being 64,206 cases, compared with 46,854 cases at this date last year and 94,743 cases at this date in 1945.

Of this total for 1947, 8,222 cases have been coho and 3,321 cases have been bluebacks.

## ROYAL THEATRE

The stellar trio of "Stallion Road," which ends tonight at the Royal Theatre, are Ronald Reagan, Alexis Smith and Zachary Scott. Several prize mares are seen in the Warner Bros. new drama. The film was produced with the co-operation of the American Humane Association.

## DOMINION THEATRE

In order to live up to its name, Republic's new musical, "Hit Parade of 1947," which is now at the Dominion Theatre, had to present the very ultimate in hit tunes. Associate producer-director Frank McDonald, accordingly, signed ace song writers Jimmy McHugh and Harold Adamson for the job of turning out musical winners, and the picture introduces a series of hit numbers.

## Where To Go Tonight

(As Advertised)  
ATLAS—James Stewart and Donna Reed in "It's a Wonderful Life."

**Stewart Town Hero In Atlas Drama**  
The joys and sorrows of small town people provide drama in Liberty film's comedy-drama for RKO Radio release, "It's a Wonderful Life," starring James Stewart and Donna Reed. The film is now at the Atlas Theatre. George Bailey, played by Stewart, art has to forego his ambition to get out and see the world, in order to carry on the humanitarian work of his late father in fostering decent homes for people through a small building and loan company. How George pulls the company through crisis after crisis and thwarts the machinations of the crusty old town banker and slum owner, packs the story with human interest. Moviegoers are welcoming Stewart back after five years of war service. Featured are Lionel Barrymore as the banker, Thomas Mitchell as Stewart's uncle, and Henry Travers as a "messenger from heaven" who helps Stewart to a momentous decision.

on Adams Road, July 16, 1947, James  
McDonald, aged 60 years; born in  
Scotland and a resident of Victoria  
for the past several years. The late  
Mr. McDonald was a laborer for many  
years. He is survived by his wife, Mrs.  
McDonald, and three children: Mr. J. R.  
McDonald, 1272 Bank Street, Victoria,  
B.C.; Mr. Robert McDonald, 1272 Bank  
Street, Victoria, B.C.; and Mr. Robert  
McDonald, 1272 Bank Street, Victoria,  
B.C.

DEATHS  
MILLAN—Sudden in Vancouver, B.C.,  
on July 16, 1947, Mary, beloved wife  
of Joseph Millan, of 2300 Lee Avenue,  
in her 64th year, born in London, En-  
gland, and had been a resident of Vi-  
ctoria for 40 years. Besides her husband  
she leaves a daughter, Mrs. F. R. Mor-  
ris of Comox, B.C.

DEATHS  
MARR—Passed away at the Royal  
Jubilee Hospital July 16, 1947, Harry  
Marr, at the age of 63 years; born in  
Barrow-in-Furness, Lancashire, En-  
gland. The late Mr. Marr was a laborer  
for many years. He is survived by his  
wife, Mrs. Marr, and three children: Mr.  
J. R. Marr, 1272 Bank Street, Victoria,  
B.C.; Mr. Robert Marr, 1272 Bank Street,  
Victoria, B.C.; and Mr. Robert Marr,  
1272 Bank Street, Victoria, B.C.

DEATHS  
RAPPEY—Passed peacefully away Tues-  
day, July 15, 1947, at the Victoria Hos-  
pital, William Rappey, aged 57 years; born  
in Tasmania. He leaves to mourn his  
loss his loving wife, Edith, only daugh-  
ter, Mrs. M. McVie, Oak Bay, and three  
sons: Mr. J. R. Rappey, 1272 Bank Street,  
Victoria, B.C.; Mr. Robert Rappey, 1272  
Bank Street, Victoria, B.C.; and Mr. Robert  
Rappey, 1272 Bank Street, Victoria, B.C.

DEATHS  
SYMONS—On July 16, 1947, at St. Joseph's  
Hospital, John Symons, born in  
Cornwall, England. For many years a  
farmer in Pender district. He leaves to  
mourn his loss his loving wife, Edith,  
only daughter, Mrs. M. McVie, Oak Bay,  
and three sons: Mr. J. R. Symons, 1272  
Bank Street, Victoria, B.C.; Mr. Robert  
Symons, 1272 Bank Street, Victoria, B.C.;  
and Mr. Robert Symons, 1272 Bank Street,  
Victoria, B.C.

DEATHS  
WRIGHT—Passed away at the Royal Jubilee  
Hospital, July 16, 1947, at the age of 64  
years, William Wright, born in Scotland,  
and had resided in Victoria for many  
years. He leaves to mourn his loss his  
loving wife, Edith, only daughter, Mrs.  
M. McVie, Oak Bay, and three sons: Mr.

AUCTIONEER

TENDERS FOR LEASING OF FUEL  
TANKS

ON behalf of His Majesty, in Right of  
Canada, sealed tenders will be received  
by the Department of National Defence for  
Canada, up to and including July 20, 1947,  
and marked to the attention of the Naval  
Secretary, Ottawa, Canada, for the leasing  
of all or part of the fuel storage  
facilities located at Colwood, B.C. and  
as more fully described hereunder:

1. Three 25,000-gallon horizontal type  
underground steel storage tanks being  
part of a battery of six tanks of  
equal size. The said battery, of tanks  
are capable of being loaded or un-  
loaded through a pipeline extending  
from the tanks to the jetty. Tanks  
are separately man-holed and can be used  
independently of one another.

2. The successful tenderer shall be re-  
quired to maintain the storage tanks  
together with valves and piping in  
connection therewith, both on the  
tanks and between the tanks and the  
main supply manifold, and shall re-  
turn the installation to the Department  
of National Defence, upon  
termination of the lease, in a condi-  
tion equal to that in which they were  
received, and in addition thereto, the  
leased tanks shall be emptied and shall  
be cleaned of all sludge, etc., and the  
interior left in condition, satisfactory  
to the Department.

3. No alterations to piping or tankage  
shall be undertaken without the  
written authority from the Depart-  
ment of National Defence, and, after  
such changes are required and autho-  
rized, they shall be made good upon  
the termination of the lease, so that  
the installation shall be returned to  
the Department in its original condi-  
tion subject to normal wear and tear.

4. The period of tenancy shall be for  
one year, definite, and subsequently  
thereafter at the discretion of the  
Department of National Defence; upon  
application by the lessee for such  
extension. One month's notice prior  
to the termination of the lease in  
writing shall be required to be given  
by the lessee for any extension to the  
lease.

5. In the event of an emergency the  
lease may be terminated by the De-  
partment of National Defence at any  
time upon one month's notice in  
writing.

6. Prospective tenderers may examine  
the facilities on the site before tender-  
ing, and inspection shall be arranged  
and further information obtained from  
the Superintendent of H.M.C. Dock-  
yard, Esquimalt, B.C.

7. The tenderer will be required to state  
in his tender, the use to which the  
tanks will be put and the type and  
classification of fuel proposed to be  
stored therein.

8. The highest or any tender will not  
necessarily be accepted.

DATED this 23rd day of June 1947, at  
the Land Registry Office, Victoria, British  
Columbia.

R. N. C. Hemberow  
Deputy Registrar  
Victoria Land Registration District

**LAND REGISTRY ACT****Section 160**

IN THE MATTER of Lot 14 in Block  
6 of Section 19, Victoria District, Plan  
970 and the West 1/2 of Lot 20 in Block  
4 of Section 3, Victoria District, Plan 62.  
PROOF having been filed in my office  
of the loss of Certificates of Title Nos.  
119005-1 and 119352-1 to the above  
mentioned lands in the name of Lennox  
Thompson and respectively bearing date  
the 12th day of April 1940 and the 20th  
day of April 1940.

I HEREBY GIVE NOTICE of my in-  
tention, at the expiration of one calendar  
month from the first publication hereof,  
to issue to the said Lennox Thompson  
Provisional Certificates of Indefeasible  
Title in lieu of such lost Certificates.

ANY PERSON having any information  
with reference to such lost Certificates of  
Title is requested to communicate with  
the undersigned.

DATED this 23rd day of June 1947, at

**Bicycle Built For Two—Or Three—Or Four Reigns In Tokyo**

A kimono-clad office worker forgets her dignity and hitches a ride on motorcycle and sidecar already loaded down with six riders. Sights such as this are common on Tokyo's streets today because the city is woefully lacking in adequate bus or trolley service. Necessity has put the city a-wheel on bicycles, bicycle-carts (called "rintaku") and jinrikishas, which, in prewar days, were used mainly by tourists and other foreigners. Demand for bikes is so great that Japs have converted a wartime airplane plant into a bicycle factory, making a special demountable model for storage in small space.

Increasingly popular is the rintaku or converted bicycle cart, introduced last February. Made of duralumin, it is strong but light, and accommodates two passengers at a nominal fare.

Jap youngster, toting baby on her back, finds riding on a bicycle cart more satisfactory than walking. Ordinarily used to carry goods, these carts have been pressed into passenger service.

**Canberra On 20th Birthday Fulfills Hopes Of Its Planners**

By WILLIAM STEWART  
CANBERRA, Australia (CP)—  
Canberra, model city of 15,000  
and Australia's federal capital, re-  
cently celebrated its 20th birth-  
day.

Parliament met here for the  
first time in May, 1927, and while  
hard times and then war inter-  
fered with Canberra's growth, it  
seems ready now to fulfill the  
hopes of early planners.

By 1950, it is hoped that federal  
departments still located in Syd-  
ney and Melbourne will have been  
transferred here permanently.  
Within five years, construction  
of 2,500 new homes is proposed  
and additional hotel accommo-  
dation, still scarce, will also be  
built.

**NO WHITE ELEPHANT**

No longer is there talk, persist-  
ing the first few years after par-  
liament moved from Melbourne  
into a \$3,000,000 Canberra build-  
ing, that the capital was a white  
elephant.

In recent years, Canberra has  
become a leading tourist attrac-  
tion for the people of Australia.  
The diplomatic corps has grown  
so rapidly that foreign represen-  
tatives have had difficulty hous-  
ing themselves and their staffs.

The late John Curtin, Australia's  
Labor wartime prime min-  
ister, did much to establish Can-  
berra. At his insistence, all meet-  
ings of cabinet, war cabinet and  
war advisory council were held  
here, though Australian service  
departments were in Melbourne  
and there was agitation for the  
establishment of Australia's war  
administration in the capital of  
Victoria.

**PLANNED 47 YEARS AGO**

When the Australian federal  
constitution was drawn up 47  
years ago, it provided that a  
national capital should be estab-  
lished "not less than 100 miles  
from Sydney."  
It was 11 years before Can-

berra was chosen as the site with  
Melbourne serving as provisional  
capital in the meantime. In 1912,  
a Chicago architect, Walter Bur-  
ley Griffin, won a world-wide  
competition for Canberra's de-  
sign.

Canberra lies on a 25,000-acre  
plateau cut by the Molonglo  
River and surrounded by purple  
hills. It now has more than 2,000  
modern homes, three shopping  
centres, four hotels and a half-  
dozen "guest houses," a new hos-  
pital, two movie theatres and a  
concert hall, a university college,  
a high school and two primary  
schools. Plans for a national uni-  
versity are afoot.

**NATIONAL BUILDINGS**

Permanent residence of the  
governor-general is on the out-  
skirts. Beside parliament and  
government buildings, the city  
has a large national war mem-  
orial, a national institute of  
anatomy, laboratories of the Aus-  
tralian Council of Scientific and  
Industrial Research, a forestry  
school, a developing national  
library and a solar observatory.

Eight million trees have been  
planted along its wide two-lane  
paved streets.

Canberra's suburbs bear the  
names of the fathers of Australia  
—Deakin, Forster, Griffith, Barton, Reid, King-  
ston, Turner and Braddon.

IMMEDIATE DELIVERY

WASHINGTON (AP)—The  
House of Representatives foreign  
affairs committee today approved  
legislation calling for arms stan-  
dardization and military co-operation  
between the countries of the  
western hemisphere.

The committee limited the  
United States' expenditure to  
\$50,000,000 for a five-year pro-  
gram.

Chances of the bill's passage at  
this session of Congress appear  
slight in view of the drive for  
adjournment by the end of next  
week. It will probably lie over  
for action early next year.

Before stamping its approval,  
the committee wrote in an  
amendment to provide that ex-  
ecution of the program must be  
consistent with the United States'  
"Good Neighbor" program.

Fireman Killed  
In Oakland Blaze

OAKLAND, Calif. (AP)—One  
fireman was killed and three  
others injured today in a blaze  
that swept a half-block in west  
Oakland's warehouse area before  
it was brought under control.

Assistant Fire Chief Manning  
Basch said the damage would  
amount to \$100,000 at least.  
Owners of property consumed by  
the flames said the losses would  
run much higher.

Fireman Louis Cetraro, 27, was  
killed. Spectators said they had  
seen him fall into a burning  
building when the roof collapsed.  
The body was recovered.

Twenty-two fires were touched  
off by the lightning storm Mon-  
day night. Eighteen are still  
burning. Only one blaze was re-  
ported from the Edgewood dis-  
trict on the Arrow Lakes.

C.N.R. Vessel Returns

MONTREAL—Honourably dis-  
charged after nearly five years  
of gallant war service, restored  
to her familiar yacht-like trim,  
the Canadian National steamship  
Lady Rodney has been repatri-  
ated and will sail for Bermuda  
and the British West Indies from  
Halifax next Saturday.

Next month the only other  
surviving "Lady" ship, the Lady

Nelson, will return to her peace-  
time calling. Capt. R. A. Clarke,  
general manager, Canadian Na-  
tional Steamships, announced to-  
day. Three sister ships, famous  
in the days before the war, the  
Lady Drake, Lady Somers,  
and Lady Hawkins, were de-  
stroyed by enemy action.

Plane Crew Killed,  
Passengers Safe  
In Iraq Crash

LONDON (CP)—British Over-  
seas Airways said today one of  
its planes had crash-landed Wed-  
nesday night in the Syrian desert  
near Basra, Iraq, killing all six  
of the crew and injuring the 12  
passengers.

The announcement said the  
air liner circled the Basra and  
Shahbah airports in bad visibility  
and later "met with an accident  
while preparing to land."

No passengers were killed.  
The injured were taken to an  
Indian general hospital near  
Basra.

Jag Jirwan Ram, Indian Min-  
ister of Labor, returning from  
consultations with the British  
government, was among the pas-  
sengers.

It is estimated that the elec-  
tric current in bolts of lightning  
makes them worth about 50 cents  
a dozen at usual electric rates.

Kootenay Forest  
Fires Controlled

NELSON, B.C. (CP)—Crews  
combating more than a score  
of forest fires in the Kootenay  
forests had the lightning-  
kindled blazes all under control  
today. One blaze at Skookum-  
chuk in the Canal Flats in East  
Kootenay was not under control,  
but forest service officials said  
the fire was quiet.

Twenty-two fires were touched  
off by the lightning storm Mon-  
day night. Eighteen are still  
burning. Only one blaze was re-  
ported from the Edgewood dis-  
trict on the Arrow Lakes.
